benny

Benny is a versatile booth seating collection designed for contemporary workplaces, education environments and social spaces.

Defined by clean architectural lines and a highly adaptable structure, Benny creates comfortable settings for focused work, informal meetings and collaborative interaction.

Available in multiple backrest heights and seating configurations, the collection effortlessly adapts to changing spatial requirements while maintaining a consistent design language.

Built for durability.
Designed for flexibility.

Designed by 2020FD.

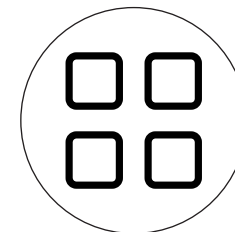

Crafted with care. Designed for people.

Benny is a modular booth seating collection developed to support the evolving needs of workplaces, universities and communal environments. Characterised by its simple geometry, clean proportions and flexible configurations, it creates comfortable spaces that encourage collaboration, concentration and conversation.

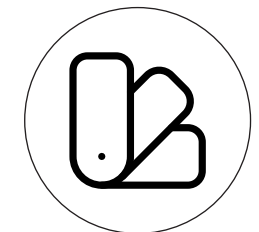

Available in single and back-to-back layouts, Benny allows designers to create linear runs, angled arrangements and space-defining zones with ease. Its adaptable structure makes it equally suited to breakout areas, touchdown spaces, learning environments and hospitality-inspired interiors.

Designed with both functionality and aesthetics in mind, Benny offers multiple backrest heights, integrated power options and a wide range of upholstery choices. The result is a seating solution that balances privacy, comfort and architectural simplicity within one cohesive collection.

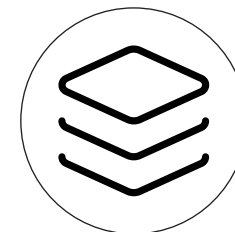

Engineered for everyday use and manufactured to the highest standards, Benny delivers long-term performance while maintaining a refined and contemporary appearance.

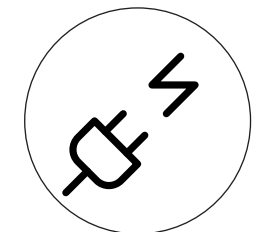

Available in single or back-to-back layouts to suit a wide variety of spaces and project requirements.

A broad selection of fabrics, colours and finishes allows every project to achieve a unique identity.

Available in low, medium and high back versions to support collaboration, focus and acoustic comfort.

Optional power modules help support modern ways of working, learning and connecting.

Flexible. Focused. Connected.

Manifest

Workspaces are constantly evolving. Teams collaborate differently, learning environments are becoming more dynamic, and spaces need furniture that adapts with ease. Benny was created to support this new way of working - simple, flexible and built around people.

Defined by clean architectural lines and a highly adaptable structure, Benny creates comfortable settings for focused work, informal meetings and everyday interaction. Suitable for workplaces, educational environments and social spaces, it brings comfort, functionality and visual clarity into one cohesive solution.

Flexibility sits at the heart of the design. With multiple configurations, backrest heights and layouts available, Benny can be tailored to suit changing project requirements while maintaining a consistent design language.

Higher back options help create personal and collaborative zones, supporting concentration, conversation and acoustic comfort. Optional power and charging solutions integrate seamlessly, supporting modern ways of working without compromising the collection's clean aesthetic.

Built for everyday use and designed for long-term performance, Benny combines durability, versatility and contemporary design — adapting naturally to the way people meet, work, learn and connect.

Spaces

The best conversations rarely happen in meeting rooms. They happen between tasks, between ideas and between people.

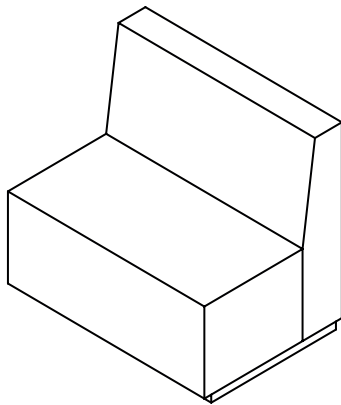

Benny is designed for these moments. Creating comfortable spaces that encourage collaboration, support focused work and bring people together naturally. From informal catch-ups to impromptu meetings, the collection helps transform everyday environments into places where ideas can be shared, developed and explored.

Defined by simple architectural forms and a timeless aesthetic, Benny integrates effortlessly into contemporary interiors while offering the flexibility to adapt to changing needs. A range of configurations, sizes and finishes allows every installation to feel considered, purposeful and unique.

Designed to support connection. Built to evolve with the spaces around it.

Modular

Benny is designed to adapt to the changing needs of contemporary interiors. Its modular construction allows designers to create everything from individual seating units to large-scale configurations that support collaboration, learning and social interaction.

The collection can be arranged in linear layouts, corner configurations or back-to-back installations, helping to maximise seating capacity while naturally defining different zones within a space. This flexibility makes Benny equally suited to workplaces, educational environments, dining areas and breakout settings.

Available in a variety of widths, heights and upholstery options, each configuration can be tailored to achieve the desired balance of comfort, privacy and visual impact.

Why Modular?

Flexible. Focused. Connected.

Benny offers exceptional flexibility to meet the specific requirements of every project. Bespoke sizes are available, allowing the collection to be tailored to unique layouts and spatial needs.

To further personalise the design, button or flute detailing can be specified upon request, creating a distinctive aesthetic while maintaining the clean architectural character of the collection.

Selected models, including Ben 1, Ben 2, Ben 4 and Ben 5, are also available in a compact 600mm depth option, providing greater versatility where space efficiency is a priority.

Benny can be specified with or without a plinth and is available on glides, offering additional flexibility across a wide range of workplace, education and hospitality environments.

More Than Seating.

Benny is designed to shape environments where people can meet, focus, collaborate and connect.

From compact meeting booths and informal breakout areas to larger collaborative settings, the collection adapts naturally to the changing needs of contemporary workplaces and educational spaces.

By combining seating, tables, media integration and technology options within one cohesive system, Benny creates functional environments that feel comfortable, intuitive and welcoming.

Built around flexibility and designed for long-term performance, Benny supports the way people work today — and the way they will work tomorrow.

Choose your own

Our upholstery collection is structured to provide clarity and flexibility in material selection. Fabrics are divided into two categories: Band 1 and Band 2, allowing projects to meet both aesthetic and performance requirements.

Band 1 offers a versatile range of high-quality fabrics that balance durability, functionality, and visual appeal. These materials deliver reliable performance with a refined finish. Band 2 features a selection of premium textiles with richer textures, enhanced tactility, and expanded color options-ideal for more sophisticated interiors.

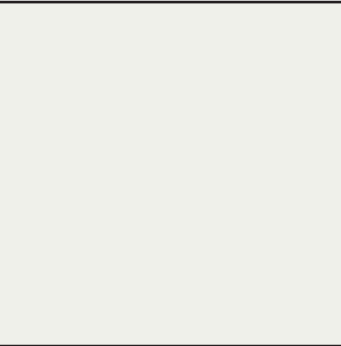

The collection also includes screen fabrics for vertical applications such as acoustic panels and privacy screens, ensuring both performance and visual consistency.

Selected finishes are available in vinyl, offering resistance to moisture, staining, and intensive use-ideal for high-traffic environments requiring easy maintenance without compromising design quality.

Our products are built using carefully selected materials that combine visual quality with functional performance. We utilize MFC boards along with layered, sound-absorbing structures and soft textile finishes to help reduce unwanted sound reflections from surrounding surfaces such as walls, furniture, and glazing.

The material composition is designed to support speech clarity and everyday comfort, minimizing background noise and improving the overall acoustic experience of the space.

Choose your own

You can choose from a wide range of finishes and material options to match your project's character and design direction. We use a selection of high-quality MFC boards from trusted suppliers, ensuring durability, consistency, and a refined appearance across all elements.

In addition to the standard finishes, custom materials and colors can be provided upon request. For larger or more specific projects, we are able to source and prepare tailored solutions based on the client's needs and preferred aesthetics.

Before you order

General

- By placing an order with 2020 Furniture Design, you agree to our standard Terms & Conditions, available on request or via our website.
- All prices are quoted in GBP and exclude VAT unless otherwise stated.

Delivery & Lead Times

- Pricing excludes delivery and installation unless specified within the quotation.
- Standard lead time for products within our RRP collection is approximately 4–6 weeks, subject to availability and seasonal demand.
- Bespoke products and customised finishes may require extended lead times depending on specification and project scope.
- During peak periods, including summer months, lead times may vary. Please contact your account manager for current production schedules.
- If shorter lead times are required, please speak with your account manager to discuss available options.

Delivery & Installations

- Installation services are available upon request and are quoted separately for each project.
- Where installation is carried out by 2020 Furniture Design, clear and unrestricted site access must be provided prior to the agreed installation date.
- Any preparatory works, including electrical works, site clearance or building works, remain the responsibility of the client. Delays or incomplete preparation may result in additional charges.
- Selected collections and bespoke projects must be delivered and installed exclusively by the 2020 Furniture Design installation team.

Warranty

- All products are covered by a 5-year warranty under normal fair wear and tear conditions.
- This warranty covers structural frames, foam and padding materials.
- Fabrics are covered under the respective manufacturer's warranty, typically 5 years depending on fabric selection.
- Electrical components, power modules and integrated charging solutions are covered by a 1-year warranty.
- Moving components and consumable parts, including hinges and door mechanisms, are covered by a 1-year warranty.
- Expected product lifecycle is approximately 15 years under normal commercial use conditions.

Care & Maintenance

To preserve the appearance and longevity of the product, regular maintenance and appropriate cleaning methods are recommended.

- Vacuum upholstery regularly to remove dust and dirt
- Clean spills immediately to prevent staining
- Avoid abrasive cleaners and harsh chemicals
- Use a soft damp cloth for laminate and hard surfaces
- Professional upholstery cleaning is recommended periodically
