

cavea

Vol. 01

cavea

Cavea is a modular tiered seating collection created to support collaboration, learning and informal interaction within contemporary workplaces, educational environments and communal spaces.

Defined by its architectural form and adaptable structure, Cavea transforms underutilised areas into engaging destinations for conversation, presentation and focused group activity.

Available in multiple configurations, heights and layouts, the collection enables designers to create everything from compact breakout zones to large collaborative hubs while maintaining a consistent visual language.

Built for everyday use.
Designed to bring people together.

Designed by 2020FD.

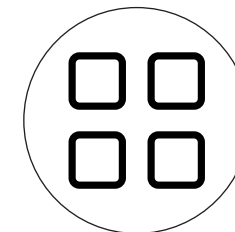

Crafted with care. Designed for people.

Cavea combines the functionality of tiered seating with the flexibility of a modular furniture system. Its carefully considered proportions encourage communication, visibility and engagement, making it ideal for collaborative environments, breakout spaces and learning settings.

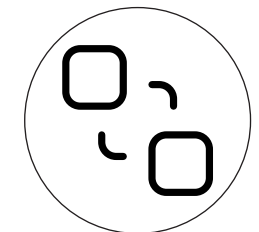

Designed to support both formal and informal interaction, Cavea creates welcoming destinations where people can meet, present ideas, exchange knowledge and work together.

The collection helps transform underutilised areas into active, purposeful spaces that encourage participation and connection.

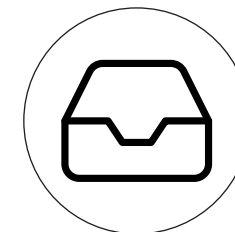

With options including integrated steps, storage, upholstered seating and multi-level configurations, Cavea adapts effortlessly to changing spatial requirements while providing a distinctive architectural presence.

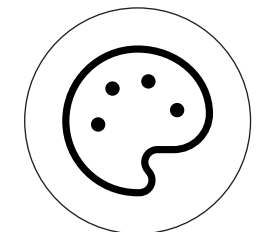

Modular elements allow endless layout possibilities, from compact seating zones to large collaborative environments.

Available in one, two and three-tier configurations to support presentations, collaboration and group interaction.

Open storage compartments provide practical space for bags, resources and everyday essentials.

Choose from a wide range of upholstery, laminates and plywood finishes to suit any interior scheme.

cavea

Engage. Connect. Collaborate.

Manifest

The best conversations rarely happen around a boardroom table.

They happen in the spaces between meetings. In moments of spontaneous collaboration, shared ideas and informal exchange. Cavea was designed for these moments — creating places where people naturally come together to learn, connect and contribute.

More than a seating system, Cavea acts as a platform for interaction. Its stepped form encourages visibility, engagement and participation, transforming underused areas into vibrant destinations for collaboration. Whether hosting presentations, workshops, team discussions or everyday conversations, Cavea helps people feel connected to the space and to each other.

Built around a modular architecture, the collection adapts effortlessly to changing environments. Configurations can expand, evolve and respond to the needs of each project, creating anything from intimate breakout settings to larger collaborative hubs.

Warm materials, refined detailing and integrated functionality bring a sense of permanence and purpose to every installation. The result is a solution that feels equally at home in workplaces, educational settings and community environments.

Cavea creates more than places to sit.

It creates places to gather.

cavea

Spaces

cavea

Cavea creates spaces that invite people to pause, gather and engage. Its stepped architecture transforms everyday breakout areas into dynamic environments that support learning, collaboration and meaningful interaction.

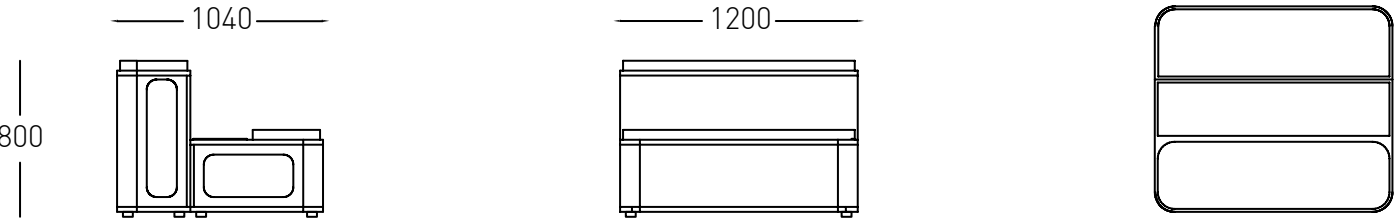

Balancing simplicity with versatility, Cavea provides a flexible platform for presentations, workshops, informal meetings and spontaneous conversations. The modular design allows each installation to respond naturally to its surroundings while maintaining a cohesive visual language.

With clean lines, warm materials and carefully integrated functionality, Cavea becomes more than seating — it becomes part of the architecture of the space.

Flexible by design

Cavea is designed to adapt to the changing needs of contemporary workplaces, educational environments and communal spaces.

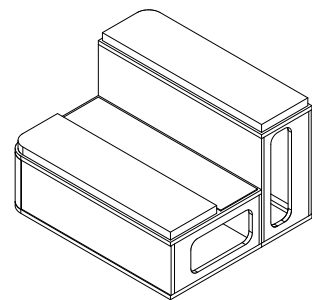

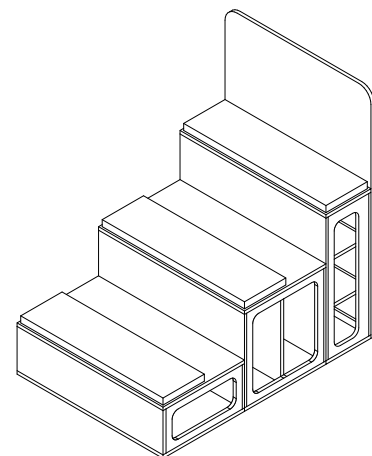

Its modular architecture allows designers to create layouts that support collaboration, presentation, focused learning and informal interaction. From compact breakout areas to large-scale amphitheatre seating, Cavea provides a flexible solution that evolves with the space around it.

Available with integrated storage compartments, enclosed base modules, upholstered seating surfaces or durable laminate worktops, the collection can be tailored to meet the specific requirements of each project.

Multiple tier heights, access step options and a wide range of plywood, laminate and upholstery finishes allow every installation to achieve a unique balance of functionality, comfort and architectural presence.

Why Modular?

Modular

Built around a family of interchangeable modules, Cavea offers exceptional flexibility when planning collaborative and learning environments.

The collection includes straight and corner elements that can be combined to create a variety of layouts, from compact seating zones to larger amphitheatre-style configurations. This modular approach allows spaces to evolve while maintaining a consistent visual language throughout the installation.

Available in multiple tier heights, Cavea supports a range of activities including presentations, workshops, informal meetings and group learning sessions. Integrated storage compartments provide convenient space for personal belongings, resources and everyday essentials.

With extensive finish options and configurable layouts, Cavea can be tailored to the functional, spatial and aesthetic requirements of each project.

The result is a versatile system that combines architectural presence with practical everyday use.

By combining modularity, durability and thoughtful design, Benny provides a versatile seating solution that evolves alongside the spaces it inhabits.

Store. Adapt. Configure.

Cavea is a flexible tiered seating system designed for collaboration, learning and social interaction.

Available with storage or no-storage configurations, laminate or upholstered top surfaces, and a range of tier heights, Cavea can be tailored to suit the unique requirements of any project.

Its modular design allows layouts to evolve from compact touchdown spaces to large collaborative environments, while integrated steps, end panels and custom upholstery options provide additional flexibility.

Combining practical functionality with a strong architectural presence, Cavea transforms underutilised areas into engaging destinations for presentation, discussion and focused group activity.

Choose your own

Our upholstery collection is structured to provide clarity and flexibility in material selection. Fabrics are divided into two categories: Band 1 and Band 2, allowing projects to meet both aesthetic and performance requirements.

Band 1 offers a versatile range of high-quality fabrics that balance durability, functionality, and visual appeal. These materials deliver reliable performance with a refined finish. Band 2 features a selection of premium textiles with richer textures, enhanced tactility, and expanded color options-ideal for more sophisticated interiors.

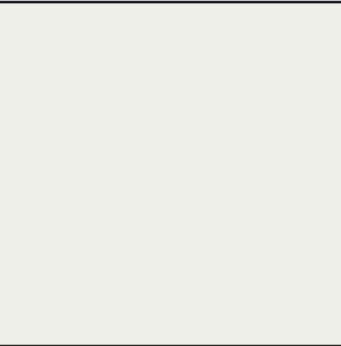

The collection also includes screen fabrics for vertical applications such as acoustic panels and privacy screens, ensuring both performance and visual consistency.

Selected finishes are available in vinyl, offering resistance to moisture, staining, and intensive use-ideal for high-traffic environments requiring easy maintenance without compromising design quality.

Our products are built using carefully selected materials that combine visual quality with functional performance. We utilize MFC boards along with layered, sound-absorbing structures and soft textile finishes to help reduce unwanted sound reflections from surrounding surfaces such as walls, furniture, and glazing.

The material composition is designed to support speech clarity and everyday comfort, minimizing background noise and improving the overall acoustic experience of the space.

Choose your own

You can choose from a wide range of finishes and material options to match your project's character and design direction. We use a selection of high-quality MFC boards from trusted suppliers, ensuring durability, consistency, and a refined appearance across all elements.

In addition to the standard finishes, custom materials and colors can be provided upon request. For larger or more specific projects, we are able to source and prepare tailored solutions based on the client's needs and preferred aesthetics.

Before you order

General

- By placing an order with 2020 Furniture Design, you agree to our standard Terms & Conditions, available on request or via our website.
- All prices are quoted in GBP and exclude VAT unless otherwise stated.

Delivery & Lead Times

- Pricing excludes delivery and installation unless specified within the quotation.
- Standard lead time for products within our RRP collection is approximately 4–6 weeks, subject to availability and seasonal demand.
- Bespoke products and customised finishes may require extended lead times depending on specification and project scope.
- During peak periods, including summer months, lead times may vary. Please contact your account manager for current production schedules.
- If shorter lead times are required, please speak with your account manager to discuss available options.

Delivery & Installations

- Installation services are available upon request and are quoted separately for each project.
- Where installation is carried out by 2020 Furniture Design, clear and unrestricted site access must be provided prior to the agreed installation date.
- Any preparatory works, including electrical works, site clearance or building works, remain the responsibility of the client. Delays or incomplete preparation may result in additional charges.
- Selected collections and bespoke projects must be delivered and installed exclusively by the 2020 Furniture Design installation team.

Warranty

- All products are covered by a 5-year warranty under normal fair wear and tear conditions.
- This warranty covers structural frames, foam and padding materials.
- Fabrics are covered under the respective manufacturer's warranty, typically 5 years depending on fabric selection.
- Electrical components, power modules and integrated charging solutions are covered by a 1-year warranty.
- Moving components and consumable parts, including hinges and door mechanisms, are covered by a 1-year warranty.
- Expected product lifecycle is approximately 15 years under normal commercial use conditions.

Care & Maintenance

To preserve the appearance and longevity of the product, regular maintenance and appropriate cleaning methods are recommended.

- Vacuum upholstery regularly to remove dust and dirt
- Clean spills immediately to prevent staining
- Avoid abrasive cleaners and harsh chemicals
- Use a soft damp cloth for laminate and hard surfaces
- Professional upholstery cleaning is recommended periodically
