Vol. 01

conference

Conference is a modular seating collection designed to support collaboration, communication and flexible working within contemporary workplaces, educational environments and communal spaces.

Defined by its curved architectural form and adaptable modular structure, Conference transforms underutilised areas into engaging destinations for presentation, discussion and informal interaction.

The comfortable bench seating and optional upholstered backrests provide support for both focused work and relaxed conversation. Integrated work surfaces create practical settings for meetings, presentations and everyday collaboration.

Built for modern environments.
Designed to bring people together.

Designed by 2020FD.

Crafted with care. Designed for people.

Conference combines the functionality of modular seating with integrated work surfaces to create flexible environments for collaboration, learning and communication.

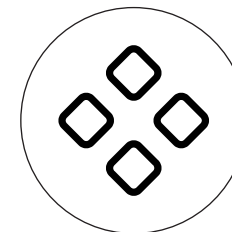

Its carefully considered proportions encourage visibility, interaction and engagement, making it ideal for breakout areas, educational settings and contemporary workplaces.

Designed to support both formal presentations and informal discussions, Conference creates

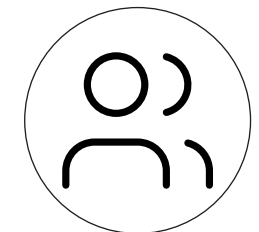

welcoming destinations where people can meet, exchange ideas and work together.

The collection transforms underutilised spaces into purposeful environments that encourage participation and connection.

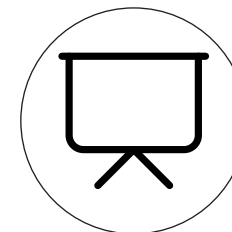

With multiple configurations, optional upholstered backs and poseur-height worktops, Conference adapts effortlessly to changing spatial requirements while maintaining a strong architectural presence.

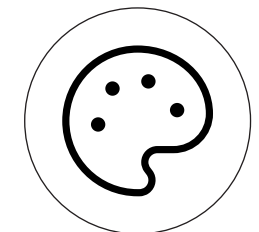

Flexible modules create layouts ranging from compact breakout zones to large collaborative environments.

Designed to encourage interaction, communication and teamwork.

Integrated work surfaces support meetings, presentations and learning activities.

Available in a wide range of upholstery, laminates and finishes.

Meet. Connect Collaborate.

Manifest

The best ideas rarely emerge in isolation.

They happen in spaces that encourage conversation, shared thinking and spontaneous collaboration. Conference was designed to support these moments — creating welcoming environments where people can meet, learn, present and exchange ideas.

More than a seating solution, Conference combines integrated work surfaces with comfortable modular seating to create practical destinations for interaction. Its distinctive curved form encourages visibility, participation and engagement, making it ideal for educational environments, workplaces and communal settings.

Built around a flexible modular structure, the collection adapts effortlessly to changing requirements. Configurations can range from compact breakout spaces to large collaborative hubs, supporting everything from informal discussions and workshops to presentations and group learning activities.

Carefully considered proportions, durable materials and extensive finish options ensure Conference performs beautifully in demanding environments while maintaining a strong architectural presence.

Conference creates more than places to meet.

It creates places to connect.

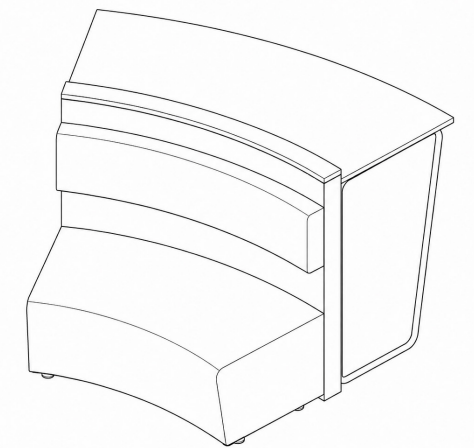

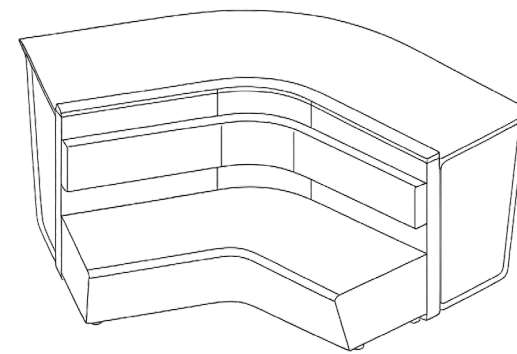

Built around people

Conference brings together seating, worksurfaces and architectural form to create spaces that feel intuitive to use.

The generous seating depth encourages relaxed interaction, while optional upholstered backrests provide support during longer meetings, presentations and collaborative sessions.

Integrated worktops offer convenient space for laptops, tablets and written materials, helping users remain connected and engaged without the need for additional furniture.

Designed to support a wide range of activities throughout the day, Conference creates environments where people can comfortably meet, learn, present and share ideas.

Why Modular?

Modular

Conference is built around a flexible family of curved modules designed to create spaces that feel connected, organised and purposeful.

Available in 36° and 60° radius modules, the system allows designers to develop a wide variety of layouts, from compact meeting areas and breakout zones to larger circular and semi-circular configurations. This modular approach provides freedom in planning while maintaining a strong and consistent visual identity throughout the space.

The collection can be specified with upholstered seating and optional upholstered backrests, providing additional comfort and support for a range of activities, from informal discussions to presentations and collaborative sessions.

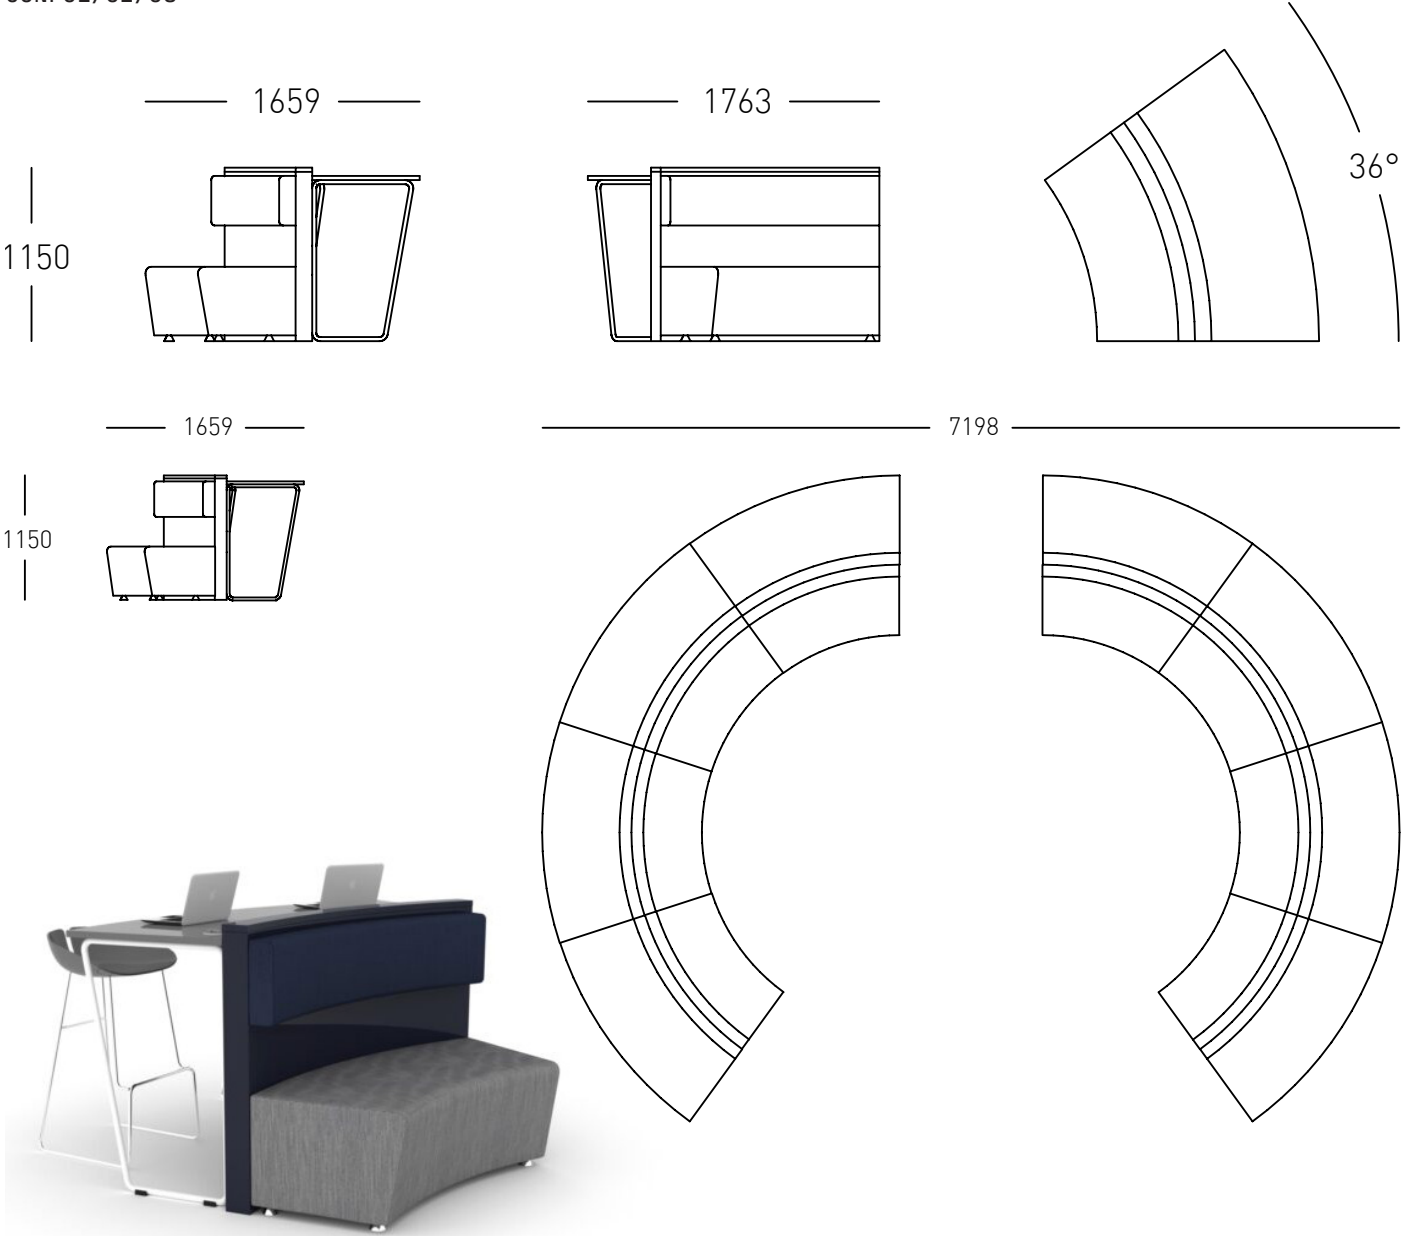

Integrated work surfaces are available with black or white metal table leg frames, allowing Conference to complement a wide variety of interior schemes and architectural styles.

Combined with an extensive selection of upholstery fabrics, laminates and finishes, Conference offers a versatile solution that can be tailored to both the functional and aesthetic requirements of each project.

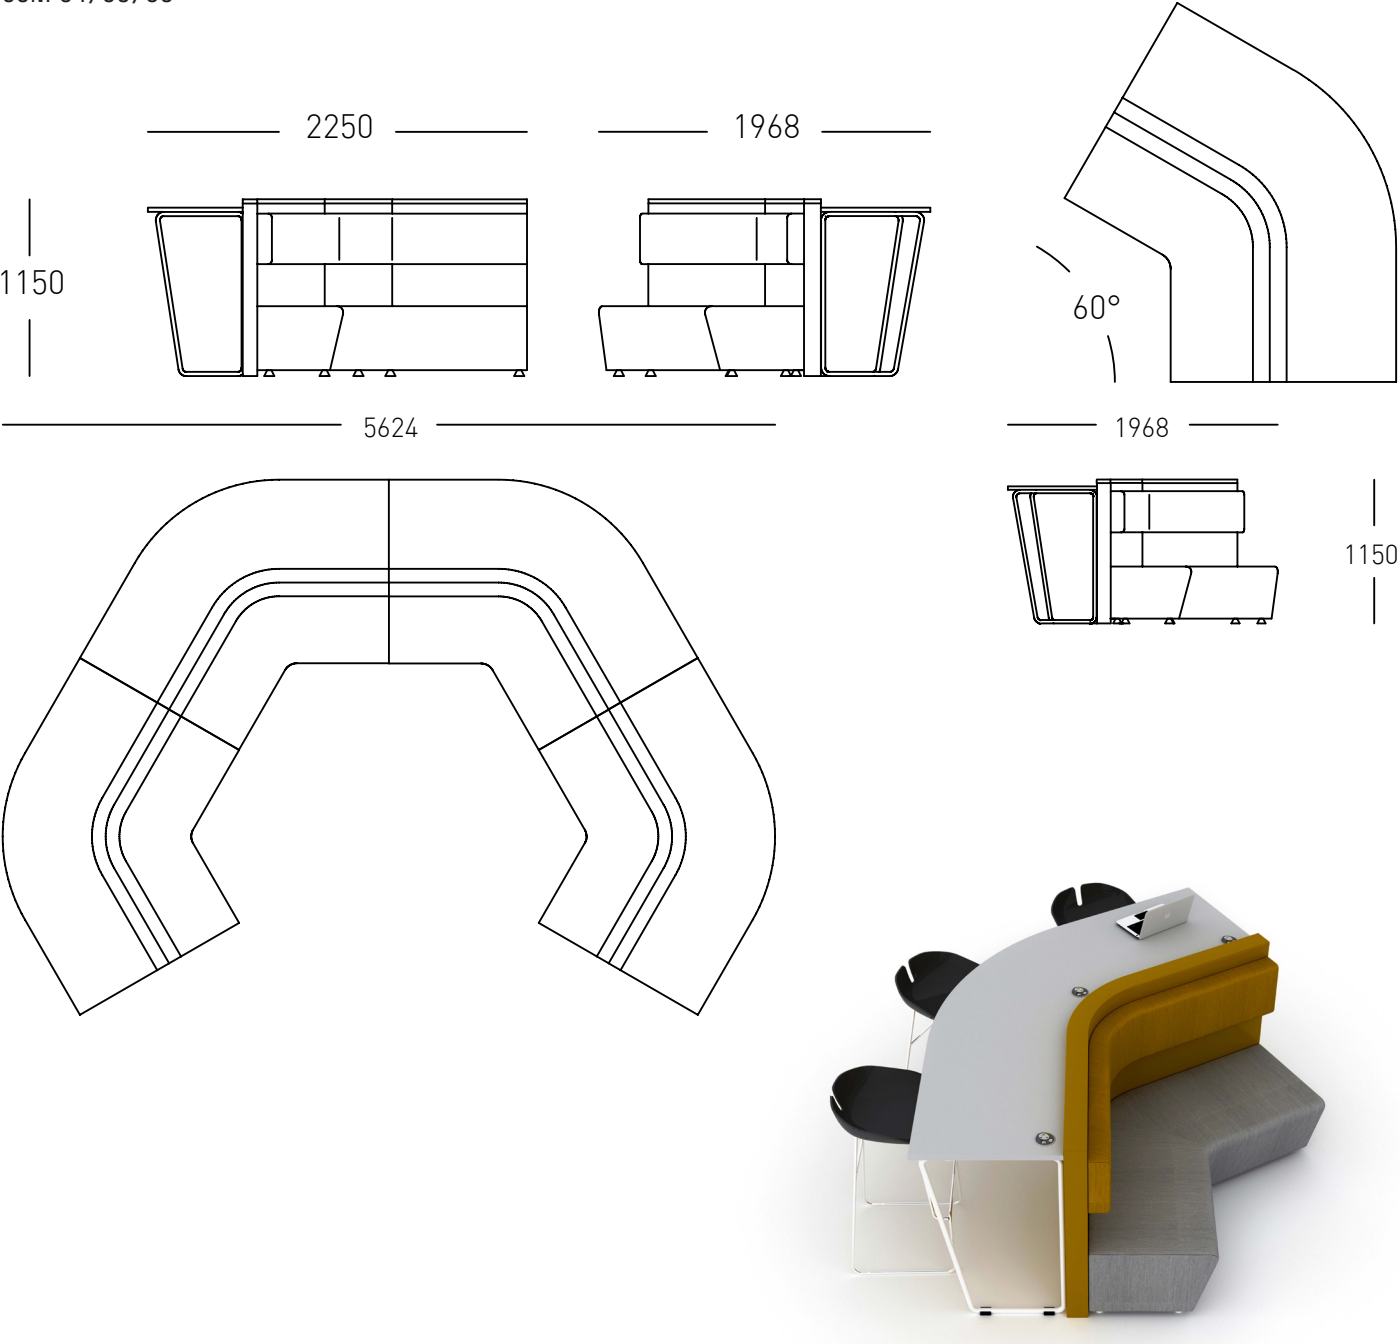

conference

Spaces

Conference helps shape environments that feel organised, welcoming and purposeful.

Its distinctive curved form introduces structure without creating barriers, defining areas for interaction while maintaining openness and visibility throughout the space.

Whether positioned within workplaces, learning environments or communal settings, the collection creates natural destinations for conversation, focused discussion and shared activity. The integrated worksurface provides a practical platform for meetings, presentations and everyday collaboration.

Designed as a flexible modular system, Conference adapts to changing requirements while maintaining a strong and consistent architectural identity. Different configurations, finishes and upholstery options allow each installation to respond to its surroundings while supporting the needs of its users.

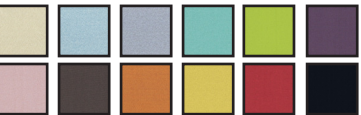

Simple in appearance yet highly functional, Conference becomes more than furniture - it becomes part of the environment.

Choose your own

Our upholstery collection is structured to provide clarity and flexibility in material selection. Fabrics are divided into two categories: Band 1 and Band 2, allowing projects to meet both aesthetic and performance requirements.

Band 1 offers a versatile range of high-quality fabrics that balance durability, functionality, and visual appeal. These materials deliver reliable performance with a refined finish. Band 2 features a selection of premium textiles with richer textures, enhanced tactility, and expanded color options-ideal for more sophisticated interiors.

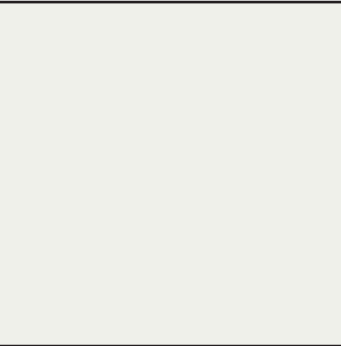

The collection also includes screen fabrics for vertical applications such as acoustic panels and privacy screens, ensuring both performance and visual consistency.

Selected finishes are available in vinyl, offering resistance to moisture, staining, and intensive use-ideal for high-traffic environments requiring easy maintenance without compromising design quality.

Our products are built using carefully selected materials that combine visual quality with functional performance. We utilize MFC boards along with layered, sound-absorbing structures and soft textile finishes to help reduce unwanted sound reflections from surrounding surfaces such as walls, furniture, and glazing.

The material composition is designed to support speech clarity and everyday comfort, minimizing background noise and improving the overall acoustic experience of the space.

Choose your own

You can choose from a wide range of finishes and material options to match your project's character and design direction. We use a selection of high-quality MFC boards from trusted suppliers, ensuring durability, consistency, and a refined appearance across all elements.

In addition to the standard finishes, custom materials and colors can be provided upon request. For larger or more specific projects, we are able to source and prepare tailored solutions based on the client's needs and preferred aesthetics.

Before you order

General

- By placing an order with 2020 Furniture Design, you agree to our standard Terms & Conditions, available on request or via our website.
- All prices are quoted in GBP and exclude VAT unless otherwise stated.

Delivery & Lead Times

- Pricing excludes delivery and installation unless specified within the quotation.
- Standard lead time for products within our RRP collection is approximately 4–6 weeks, subject to availability and seasonal demand.
- Bespoke products and customised finishes may require extended lead times depending on specification and project scope.
- During peak periods, including summer months, lead times may vary. Please contact your account manager for current production schedules.
- If shorter lead times are required, please speak with your account manager to discuss available options.

Delivery & Installations

- Installation services are available upon request and are quoted separately for each project.
- Where installation is carried out by 2020 Furniture Design, clear and unrestricted site access must be provided prior to the agreed installation date.
- Any preparatory works, including electrical works, site clearance or building works, remain the responsibility of the client. Delays or incomplete preparation may result in additional charges.
- Selected collections and bespoke projects must be delivered and installed exclusively by the 2020 Furniture Design installation team.

Warranty

- All products are covered by a 5-year warranty under normal fair wear and tear conditions.
- This warranty covers structural frames, foam and padding materials.
- Fabrics are covered under the respective manufacturer's warranty, typically 5 years depending on fabric selection.
- Electrical components, power modules and integrated charging solutions are covered by a 1-year warranty.
- Moving components and consumable parts, including hinges and door mechanisms, are covered by a 1-year warranty.
- Expected product lifecycle is approximately 15 years under normal commercial use conditions.

Care & Maintenance

To preserve the appearance and longevity of the product, regular maintenance and appropriate cleaning methods are recommended.

- Vacuum upholstery regularly to remove dust and dirt
- Clean spills immediately to prevent staining
- Avoid abrasive cleaners and harsh chemicals
- Use a soft damp cloth for laminate and hard surfaces
- Professional upholstery cleaning is recommended periodically
