

faith

Vol. 01

faith

Faith is a soft seating collection designed for the spaces between – the quiet corners, open lobbies and compact breakout areas where people pause, recharge and reconnect.

Built around a robust powder-coated steel frame and generously upholstered seat and back, Faith offers the kind of comfort that encourages people to stay a little longer, think a little deeper and talk a little more openly.

With an integrated worktop sitting neatly within the structure, Faith is equally at home supporting a brief meeting, a laptop session or an impromptu catch-up.

Designed for offices. Made for people.

Designed by 2020FD.

Crafted with care. Designed for people.

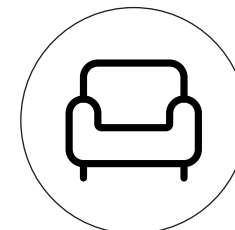

Good breakout furniture does more than fill a space. It gives people a reason to use it.

Faith was designed with that intention. Its generous proportions and plush upholstery create an immediate sense of comfort, while the integrated worktop ensures it remains practical for the demands of a working day. The robust 40mm powder-coated steel frame sits beneath it all - quietly doing its job, built to withstand the pace of busy, everyday environments.

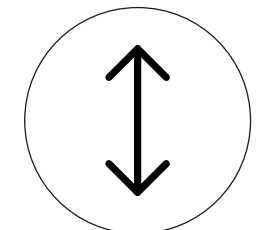

Available in low and high versions, and in a range of back-to-back and sofa configurations,

Faith brings flexibility without compromise - adapting to the space rather than the other way around. Whether tucked into a compact corner or anchoring a larger breakout zone, each configuration holds its own with confidence.

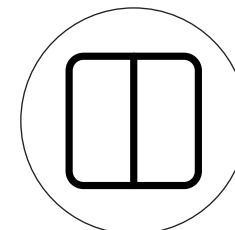

Equally suited to a quiet corner of a university campus or a busy corporate office, Faith is furniture that understands how people actually work. Not every conversation needs a meeting room. Not every task needs a desk. Sometimes all it takes is the right place to sit.

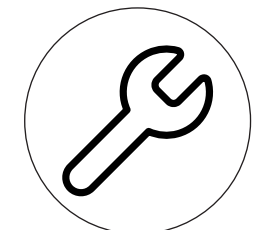

Plush upholstered seat and back provide optimum comfort and posture support.

Offered in both low and high versions to suit every breakout environment.

Available in two and four-seater back-to-back configurations for shared spaces.

Robust 40mm powder-coated steel frame ensures durability and long-term reliability.

Meet. Sit. Collaborate.

Manifest

The best conversations rarely happen at a desk.

They happen in spaces that invite people to pause, sit together and share ideas. Faith was designed to support these moments - creating comfortable, functional environments where people can meet, work and connect naturally.

More than a seating solution, Faith combines plush upholstered comfort with convenient integrated worktops, providing a practical and welcoming destination for collaboration. Its clean contemporary form fits naturally within offices, universities and communal settings.

Built around a flexible range of configurations, the collection adapts effortlessly to different spaces and uses. Whether specified as a compact two-seater or a larger back-to-back arrangement, Faith supports everything from brief chats and informal catch-ups to focused working sessions.

Carefully considered proportions and durable materials ensure Faith performs beautifully in demanding environments while maintaining a refined, contemporary character.

Faith creates more than places to sit.

It creates places to belong.

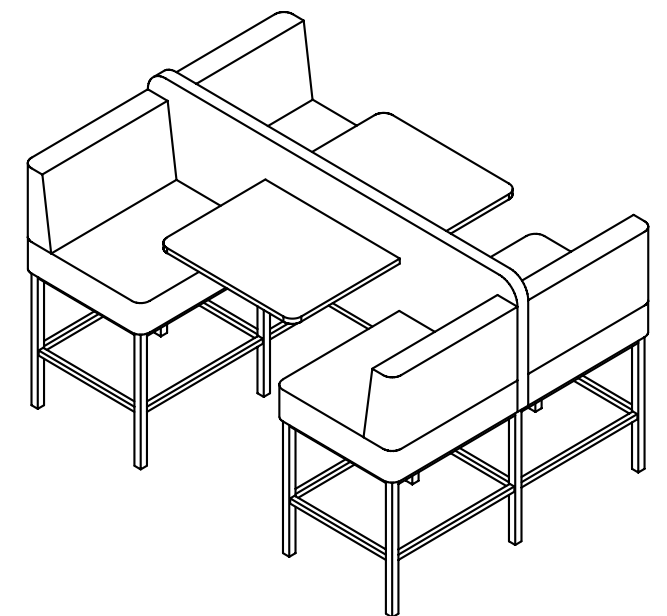

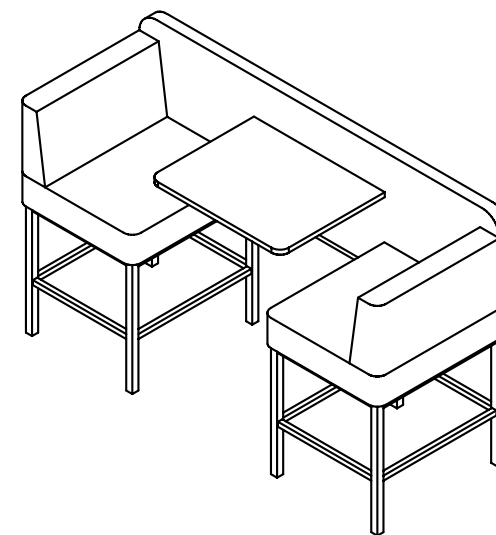

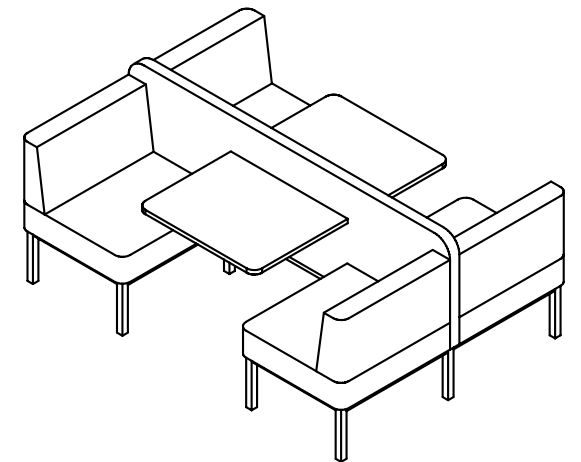

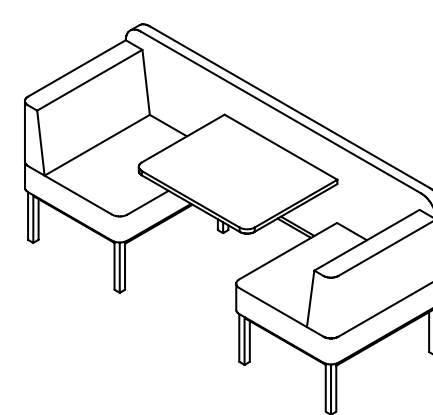

Built around people

Faith starts with the seat.

The generously proportioned upholstered cushion provides a level of comfort rarely found in contract breakout furniture — firm enough to support posture during a working session, soft enough to encourage people to settle in. The upholstered back adds further support, making Faith suitable not just for a quick conversation but for longer periods of focused work or relaxed discussion.

The integrated worktop sits at a height that works naturally alongside the seating, providing a practical surface without disrupting the clean lines of the overall form.

Together, these elements create a piece of furniture that does exactly what a breakout space needs — it makes people want to stop, sit down and stay.

Why Modular?

Modular

Faith is built around a flexible family of seat and back configurations designed to create spaces that feel comfortable, connected and purposeful.

Available in two-seater sofa, two-seater back-to-back and four-seater back-to-back arrangements - in both low and high versions - the system allows designers and specifiers to develop a wide variety of layouts, from intimate breakout zones to larger collaborative settings. This flexible approach provides freedom in planning while maintaining a strong and consistent visual identity throughout the space.

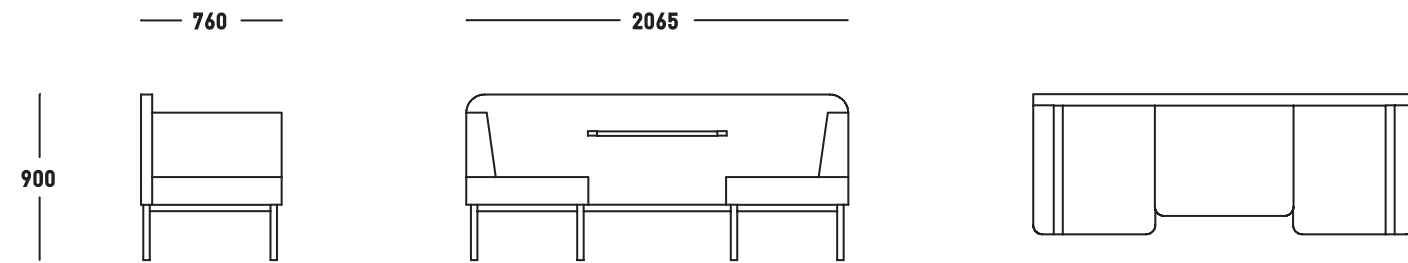

The collection can be specified with plush upholstered seating and backs, providing comfort and support for a range of activities, from relaxed conversation to focused collaborative work.

Integrated worktops are available to provide a convenient surface for laptops, tablets and written materials, allowing Faith to function as a complete breakout solution without the need for additional furniture.

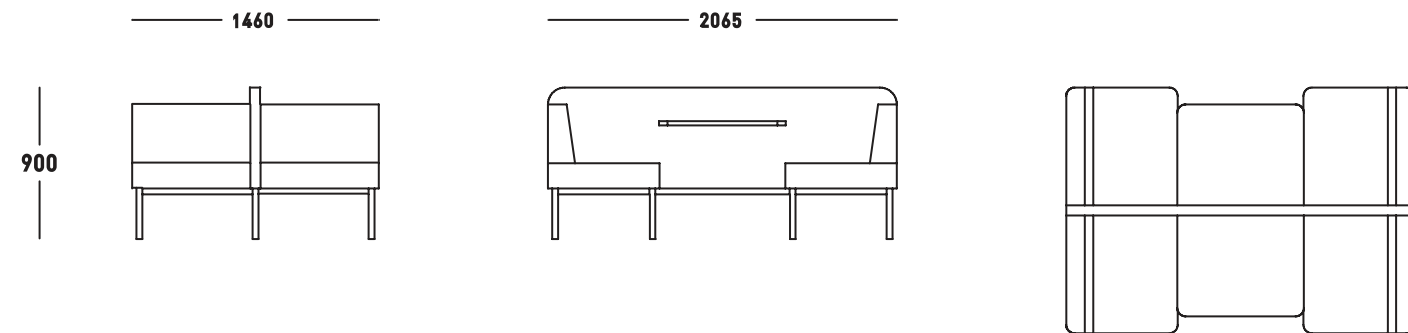

Combined with an extensive selection of upholstery fabrics and frame finishes, Faith offers a versatile solution that can be tailored to both the functional and aesthetic requirements of each project.

FAI04

Made to fit. Built to last.

Faith is available in two distinct height profiles - low at 900mm for relaxed, lounge-style settings, and high at 1250mm for more upright, working environments.

Both versions share the same considered proportions and quality of finish, giving specifiers the freedom to mix heights across a single space without losing visual consistency.

The steel frame is offered in both white and black powder-coat finishes - clean and minimal either way, and built to withstand the demands of busy everyday environments.

Upholstery is available across a wide range of fabrics from Camira, Agua and Panaz. Mix seat and back colours to add character, or keep it tonal for a more considered, understated look. Either way, every Faith piece is finished with the same attention to detail - tight seams, consistent cushion depth and a quality of craft that is built to last.

Spaces

Faith helps shape environments that feel organised, welcoming and purposeful. Its clean, structured form introduces definition without creating barriers - framing areas for interaction while maintaining openness throughout the space.

Whether positioned within offices, learning environments or communal settings, Faith creates natural destinations for conversation and shared activity. The integrated worksurface provides a practical platform for meetings, informal presentations and everyday collaboration.

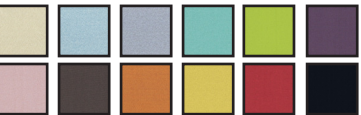

With flexible configurations and a range of upholstery options, each installation can respond to its surroundings while supporting the needs of its users.

Choose your own

Our upholstery collection is structured to provide clarity and flexibility in material selection. Fabrics are divided into two categories: Band 1 and Band 2, allowing projects to meet both aesthetic and performance requirements.

Band 1 offers a versatile range of high-quality fabrics that balance durability, functionality, and visual appeal. These materials deliver reliable performance with a refined finish. Band 2 features a selection of premium textiles with richer textures, enhanced tactility, and expanded color options-ideal for more sophisticated interiors.

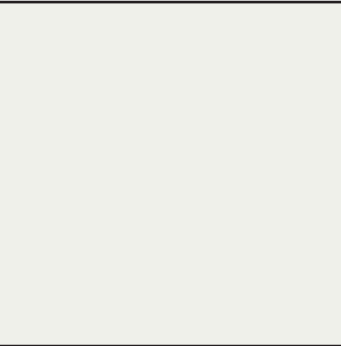

The collection also includes screen fabrics for vertical applications such as acoustic panels and privacy screens, ensuring both performance and visual consistency.

Selected finishes are available in vinyl, offering resistance to moisture, staining, and intensive use-ideal for high-traffic environments requiring easy maintenance without compromising design quality.

Our products are built using carefully selected materials that combine visual quality with functional performance. We utilize MFC boards along with layered, sound-absorbing structures and soft textile finishes to help reduce unwanted sound reflections from surrounding surfaces such as walls, furniture, and glazing.

The material composition is designed to support speech clarity and everyday comfort, minimizing background noise and improving the overall acoustic experience of the space.

Choose your own

You can choose from a wide range of finishes and material options to match your project's character and design direction. We use a selection of high-quality MFC boards from trusted suppliers, ensuring durability, consistency, and a refined appearance across all elements.

In addition to the standard finishes, custom materials and colors can be provided upon request. For larger or more specific projects, we are able to source and prepare tailored solutions based on the client's needs and preferred aesthetics.

Before you order

General

- By placing an order with 2020 Furniture Design, you agree to our standard Terms & Conditions, available on request or via our website.
- All prices are quoted in GBP and exclude VAT unless otherwise stated.

Delivery & Lead Times

- Pricing excludes delivery and installation unless specified within the quotation.
- Standard lead time for products within our RRP collection is approximately 4–6 weeks, subject to availability and seasonal demand.
- Bespoke products and customised finishes may require extended lead times depending on specification and project scope.
- During peak periods, including summer months, lead times may vary. Please contact your account manager for current production schedules.
- If shorter lead times are required, please speak with your account manager to discuss available options.

Delivery & Installations

- Installation services are available upon request and are quoted separately for each project.
- Where installation is carried out by 2020 Furniture Design, clear and unrestricted site access must be provided prior to the agreed installation date.
- Any preparatory works, including electrical works, site clearance or building works, remain the responsibility of the client. Delays or incomplete preparation may result in additional charges.
- Selected collections and bespoke projects must be delivered and installed exclusively by the 2020 Furniture Design installation team.

Warranty

- All products are covered by a 5-year warranty under normal fair wear and tear conditions.
- This warranty covers structural frames, foam and padding materials.
- Fabrics are covered under the respective manufacturer's warranty, typically 5 years depending on fabric selection.
- Electrical components, power modules and integrated charging solutions are covered by a 1-year warranty.
- Moving components and consumable parts, including hinges and door mechanisms, are covered by a 1-year warranty.
- Expected product lifecycle is approximately 15 years under normal commercial use conditions.

Care & Maintenance

To preserve the appearance and longevity of the product, regular maintenance and appropriate cleaning methods are recommended.

- Vacuum upholstery regularly to remove dust and dirt
- Clean spills immediately to prevent staining
- Avoid abrasive cleaners and harsh chemicals
- Use a soft damp cloth for laminate and hard surfaces
- Professional upholstery cleaning is recommended periodically
