Vol. 01

2020furnituredesign.co.uk

mono

MONO is a contemporary acoustic pod designed to bring privacy, focus and calm into modern workplaces. Designed with flexibility and longevity in mind, the pod combines durable MFC outer panels with upholstered acoustic interiors to create a comfortable and visually balanced workspace solution.

Minimal form.
Maximum focus.

Designed by 2020FD.

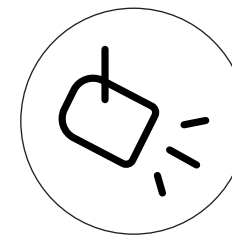

Quiet by design. Built for focus.

MONO is an acoustic workspace pod created to support concentration, privacy and wellbeing in contemporary office environments. Combining clean geometry with soft interior materials, the pod delivers a calm and comfortable setting for focused tasks, video calls and individual work.

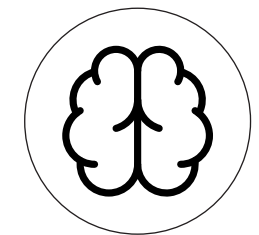

Designed to integrate seamlessly into evolving workplaces, MONO balances practicality with refined contemporary aesthetics. Its compact footprint and modular construction allow it to adapt easily to changing layouts and project requirements.

Built-in lighting and PIR sensor technology improve comfort and energy efficiency, while optional upgrades including power modules, air circulation and acoustic glass allow the pod to be tailored to different workplace needs.

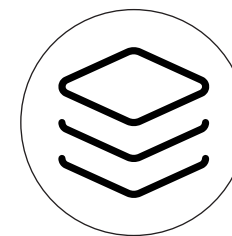

Crafted with replaceable components and durable materials, MONO is designed for long-term use - supporting sustainable workplace design through adaptability, maintenance efficiency and product longevity.

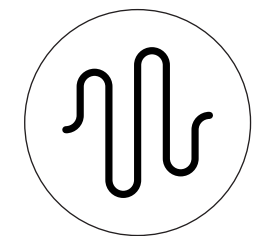

Built-in lighting with PIR sensor technology for comfort and energy efficiency.

Creates calm and private spaces that support concentration and wellbeing.

Available with low seating or a standing-height worktable option.

Acoustic walls and glass door design helps reduce surrounding noise and distractions.

Modular. Flexible. Soft.

Manifest

Work evolves. Modern workplaces need spaces that support both collaboration and privacy. MONO is designed to create calm environments for focus, calls and individual work within open-plan interiors.

Privacy matters. Soft acoustic interiors, balanced proportions and warm materials create comfortable spaces that reduce distractions and support wellbeing throughout the day.

Flexibility is essential. Compact and adaptable, MONO integrates naturally into changing workplace layouts while maintaining a clean architectural presence.

Technology integrates quietly. Integrated lighting, optional power modules and acoustic upgrades support modern ways of working without compromising the minimal aesthetic of the pod.

Designed for longevity, MONO combines modular construction with replaceable components to support long-term commercial use and more sustainable interiors.

mono

Why mono?

Modern workspaces demand flexibility, privacy and focus. MONO is designed to support changing ways of working by creating compact acoustic spaces for calls, concentration and individual tasks - without disrupting the surrounding environment.

Its clean architectural form integrates naturally into contemporary interiors while maintaining a calm and refined visual presence. Whether placed in open-plan offices, breakout areas or collaborative environments, MONO helps create quieter and more balanced workplaces.

Designed for versatility, MONO is available with two setups:

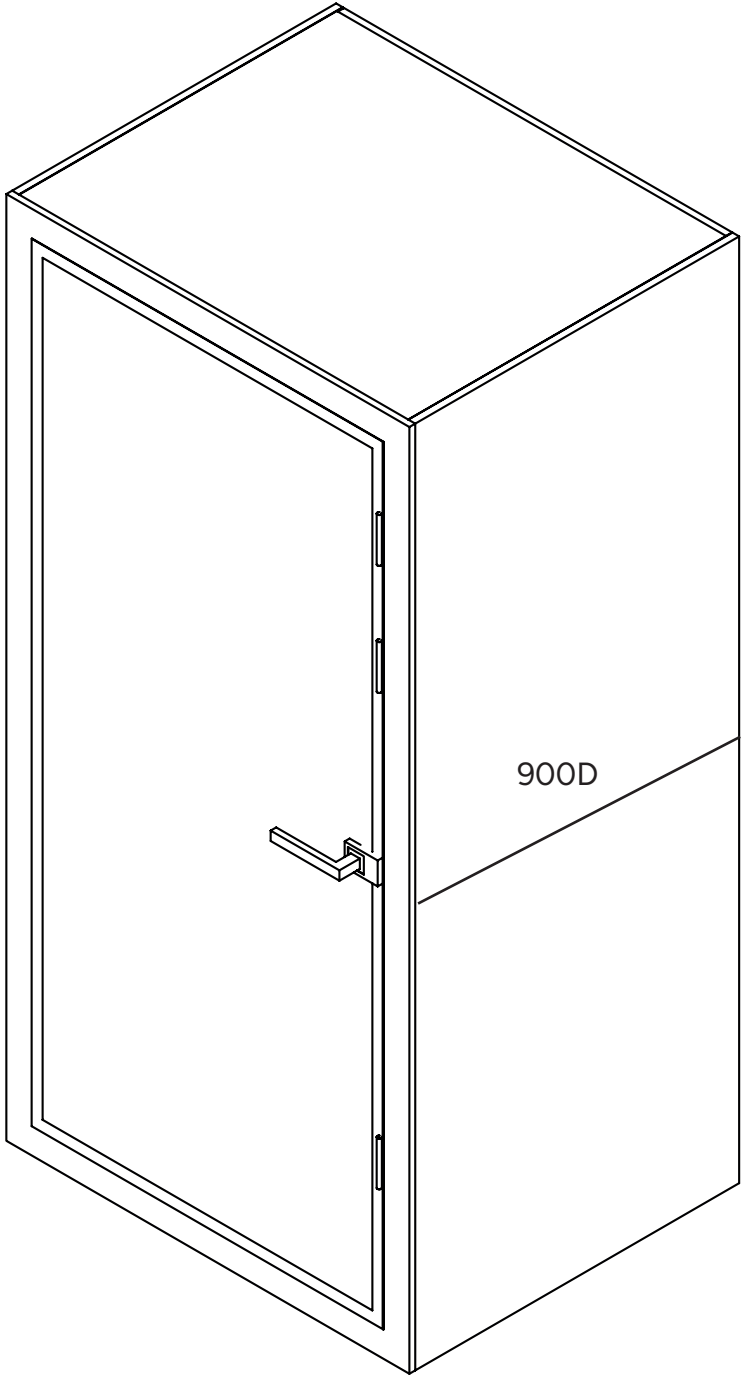

- a seated configuration with integrated seat and work surface,
- standing-height table option for quick calls, touch-down working and agile use throughout the day.

Integrated lighting, optional power modules and acoustic upgrades allow each pod to be tailored to different workplace needs while maintaining a minimal and timeless aesthetic.

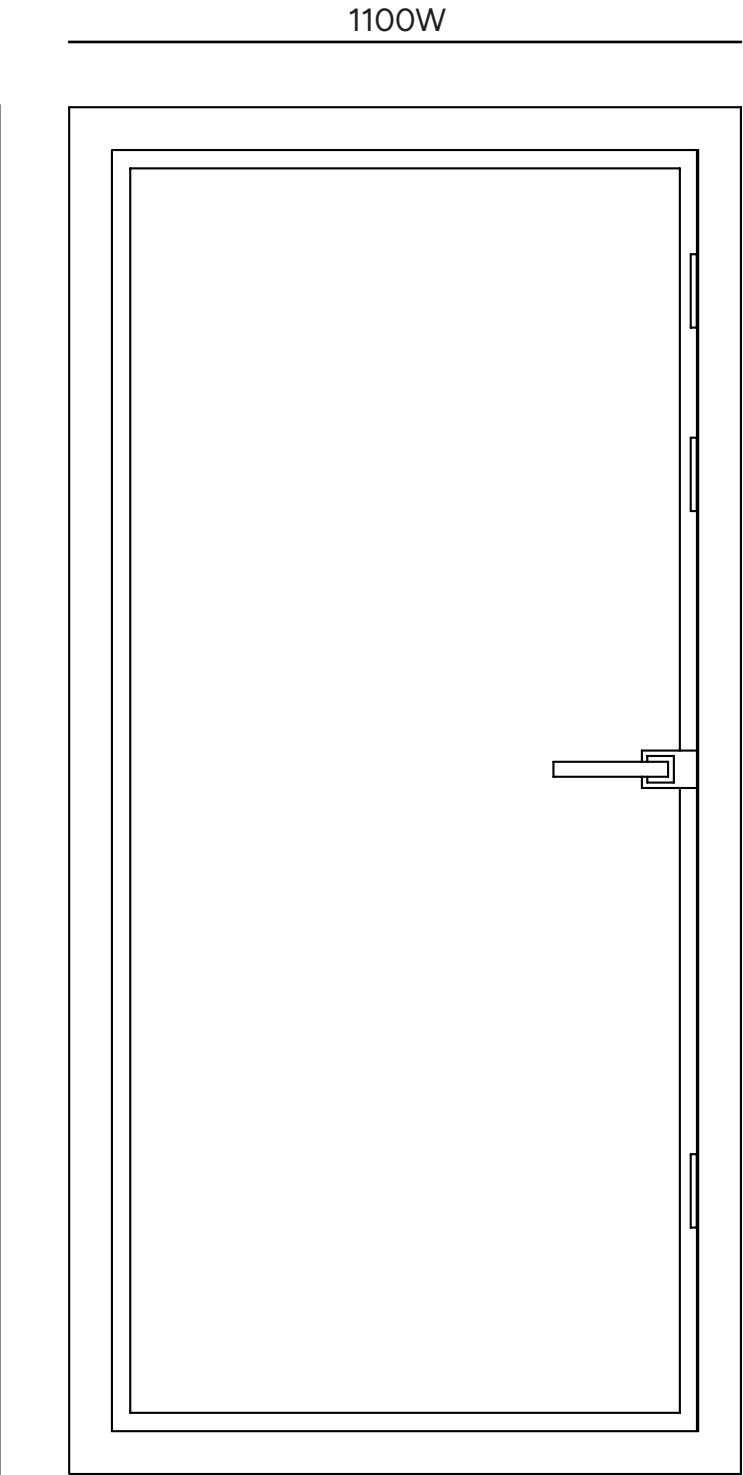

Built with durability and adaptability in mind, MONO features replaceable components and modular construction, supporting long-term sustainable workplace design.

Focus

mono

Privacy without isolation

MONO is designed to create moments of focus within busy workplaces - offering privacy for calls, video meetings and individual work while remaining visually connected to the surrounding environment.

Its compact footprint integrates effortlessly into open-plan offices, breakout zones and collaborative spaces. Soft acoustic surfaces, integrated lighting and refined proportions create a calm and comfortable atmosphere that supports concentration throughout the day.

Available in seated or standing-height configurations, MONO adapts to different workstyles with ease. Optional power modules, air circulation and acoustic glass upgrades allow the pod to be tailored to modern workplace needs.

Minimal in form yet highly functional, MONO combines acoustic comfort, flexibility and timeless contemporary design in one cohesive workspace solution.

Choose your own

Our upholstery collection is structured to provide clarity and flexibility in material selection. Fabrics are divided into two categories: Band 1 and Band 2, allowing projects to meet both aesthetic and performance requirements.

Band 1 offers a versatile range of high-quality fabrics that balance durability, functionality, and visual appeal. These materials deliver reliable performance with a refined finish. Band 2 features a selection of premium textiles with richer textures, enhanced tactility, and expanded color options-ideal for more sophisticated interiors.

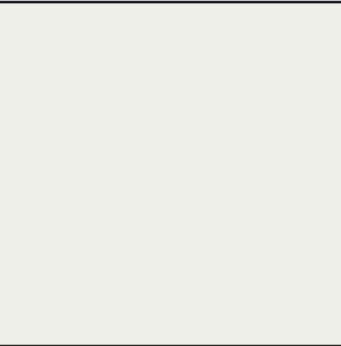

The collection also includes screen fabrics for vertical applications such as acoustic panels and privacy screens, ensuring both performance and visual consistency.

Selected finishes are available in vinyl, offering resistance to moisture, staining, and intensive use-ideal for high-traffic environments requiring easy maintenance without compromising design quality.

Our products are built using carefully selected materials that combine visual quality with functional performance. We utilize MFC boards along with layered, sound-absorbing structures and soft textile finishes to help reduce unwanted sound reflections from surrounding surfaces such as walls, furniture, and glazing.

The material composition is designed to support speech clarity and everyday comfort, minimizing background noise and improving the overall acoustic experience of the space.

Choose your own

You can choose from a wide range of finishes and material options to match your project's character and design direction. We use a selection of high-quality MFC boards from trusted suppliers, ensuring durability, consistency, and a refined appearance across all elements.

In addition to the standard finishes, custom materials and colors can be provided upon request. For larger or more specific projects, we are able to source and prepare tailored solutions based on the client's needs and preferred aesthetics.

Before you order

General

- By placing an order with 2020 Furniture Design, you agree to our standard Terms & Conditions, available on request or via our website.
- All prices are quoted in GBP and exclude VAT unless otherwise stated.

Delivery & Lead Times

- Pricing excludes delivery and installation unless specified within the quotation.
- Standard lead time for products within our RRP collection is approximately 4–6 weeks, subject to availability and seasonal demand.
- Bespoke products and customised finishes may require extended lead times depending on specification and project scope.
- During peak periods, including summer months, lead times may vary. Please contact your account manager for current production schedules.
- If shorter lead times are required, please speak with your account manager to discuss available options.

Delivery & Installations

- Installation services are available upon request and are quoted separately for each project.
- Where installation is carried out by 2020 Furniture Design, clear and unrestricted site access must be provided prior to the agreed installation date.
- Any preparatory works, including electrical works, site clearance or building works, remain the responsibility of the client. Delays or incomplete preparation may result in additional charges.
- Selected collections and bespoke projects must be delivered and installed exclusively by the 2020 Furniture Design installation team.

Warranty

- All products are covered by a 5-year warranty under normal fair wear and tear conditions.
- This warranty covers structural frames, foam and padding materials.
- Fabrics are covered under the respective manufacturer's warranty, typically 5 years depending on fabric selection.
- Electrical components, power modules and integrated charging solutions are covered by a 1-year warranty.
- Moving components and consumable parts, including hinges and door mechanisms, are covered by a 1-year warranty.
- Expected product lifecycle is approximately 15 years under normal commercial use conditions.

Care & Maintenance

To preserve the appearance and longevity of the product, regular maintenance and appropriate cleaning methods are recommended.

- Vacuum upholstery regularly to remove dust and dirt
- Clean spills immediately to prevent staining
- Avoid abrasive cleaners and harsh chemicals
- Use a soft damp cloth for laminate and hard surfaces
- Professional upholstery cleaning is recommended periodically
