

ripple

Vol. 01

ripple

Architecture for conversation.

Ripple doesn't compete with the space around it.

Instead, it quietly defines it.

The collection creates places for conversation, concentration and everyday interaction by introducing subtle boundaries rather than physical separation.

High upholstered backs soften acoustics, timber frames add warmth and carefully balanced proportions create a feeling of permanence.

Designed as a modular architectural element rather than a standalone piece, Ripple integrates naturally into workplaces, universities, hospitality environments and public interiors.

Furniture that shapes behaviour.
Without asking for attention.

Designed by 2020FD

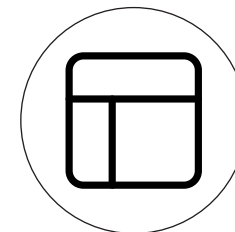

Crafted with care. Designed for people.

Every space is shaped by the people who use it.

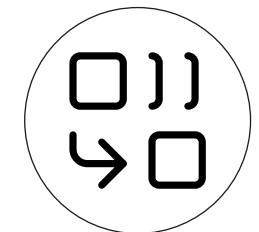

Ripple has been designed to support the natural rhythm of modern environments - creating comfortable places for conversation, focused work and informal collaboration without interrupting the flow of the interior.

Clean architectural lines, high upholstered screens and warm timber detailing work together to provide privacy, comfort and a welcoming visual presence.

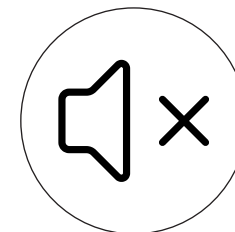

Built around a flexible modular system, **Ripple** adapts effortlessly to changing layouts while maintaining a consistent design language across workplaces, education, hospitality and public spaces.

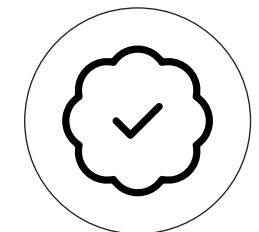

High upholstered screens create comfortable personal space while keeping people visually connected to their surroundings.

Individual booths, continuous seating and custom layouts built from one flexible system.

Upholstered screens help soften surrounding noise, making discussions more comfortable and focused.

Developed for education, workplaces and hospitality environments where furniture works every day.

ripple

Manifest

The best spaces aren't defined by walls.

They're defined by the moments that happen within them.

A conversation that turns into an idea. A quiet pause between meetings. A place to focus, reconnect or simply take a breath before moving on.

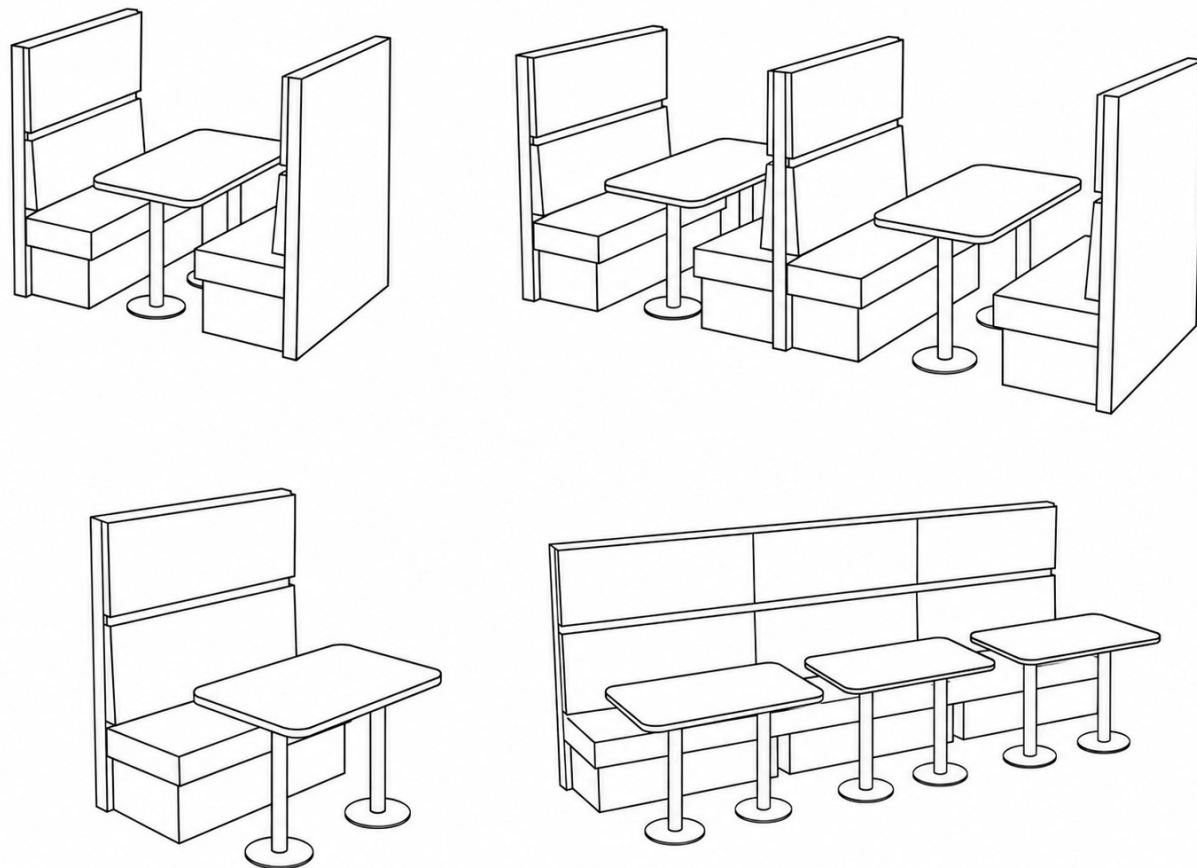

Ripple was created to support these everyday moments. Not by demanding attention, but by becoming a natural part of the environment. High upholstered screens introduce privacy without isolation, while warm materials and balanced proportions create spaces that feel welcoming from the very first use.

Every configuration is designed to adapt. Whether forming individual booths, continuous seating or collaborative zones, Ripple helps organise interiors with clarity, comfort and purpose.

Built for demanding commercial environments and designed to remain relevant for years to come, Ripple combines durability with architectural simplicity.

Because great furniture doesn't just occupy space.

It gives people a reason to use it.

Sit.
Share.
Flow.

Designed to adapt. Built to last.

Every project is different, but the need for comfortable, welcoming spaces remains the same.

Ripple offers a flexible family of modular seating solutions that can be arranged to suit collaborative workplaces, education, hospitality and public interiors. Individual booths, extended seating and bespoke layouts all share the same refined proportions, durable construction and understated architectural character.

Created to organise space without dominating it, Ripple delivers lasting comfort, visual consistency and the flexibility to grow alongside the environments it serves.

Why ripple?

The best spaces rarely happen by accident.

They're carefully structured.

Ripple introduces this structure through furniture instead of walls.

Each module helps define circulation, improve comfort and create places people naturally choose to use.

Whether arranged individually or as continuous seating, the collection brings consistency to large interiors while remaining flexible enough for future change.

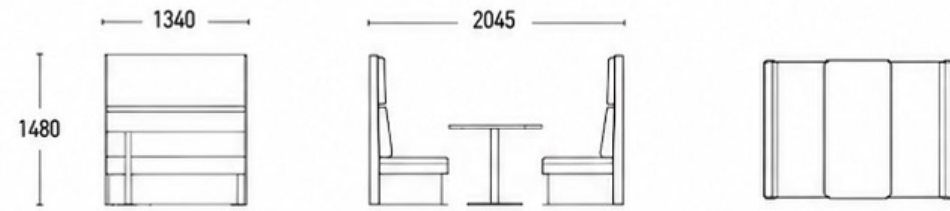

Less furniture.

More architecture.

Spaces

The places we remember are rarely the largest or the loudest.

They're the ones that feel comfortable from the moment we arrive.

Ripple creates these everyday destinations-spaces where conversations begin naturally, ideas are exchanged without formality and quiet moments are just as important as collaboration.

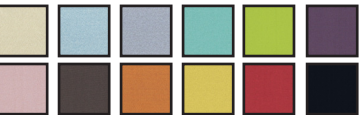

Its modular design allows interiors to evolve while maintaining a calm, consistent architectural language. Whether used as

Choose your own

Our upholstery collection is structured to provide clarity and flexibility in material selection. Fabrics are divided into two categories: Band 1 and Band 2, allowing projects to meet both aesthetic and performance requirements.

Band 1 offers a versatile range of high-quality fabrics that balance durability, functionality, and visual appeal. These materials deliver reliable performance with a refined finish. Band 2 features a selection of premium textiles with richer textures, enhanced tactility, and expanded color options-ideal for ripplee sophisticated interiors.

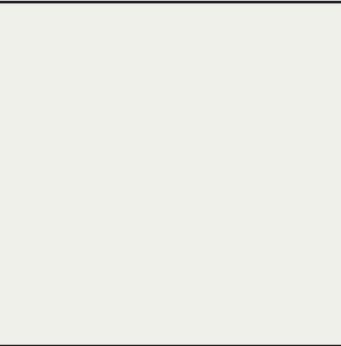

The collection also includes screen fabrics for vertical applications such as acoustic panels and privacy screens, ensuring both performance and visual consistency.

Selected finishes are available in vinyl, offering resistance to moisture, staining, and intensive use-ideal for high-traffic environments requiring easy maintenance without compromising design quality.

Our products are built using carefully selected materials that combine visual quality with functional performance. We utilize MFC boards along with layered, sound-absorbing structures and soft textile finishes to help reduce unwanted sound reflections from surrounding surfaces such as walls, furniture, and glazing.

The material composition is designed to support speech clarity and everyday comfort, minimizing background noise and improving the overall acoustic experience of the space.

Choose your own

You can choose from a wide range of finishes and material options to match your project's character and design direction. We use a selection of high-quality MFC boards from trusted suppliers, ensuring durability, consistency, and a refined appearance across all elements.

In addition to the standard finishes, custom materials and colors can be provided upon request. For larger or ripplee specific projects, we are able to source and prepare tailored solutions based on the client's needs and preferred aesthetics.

Before you order

General

- By placing an order with 2020 Furniture Design, you agree to our standard Terms & Conditions, available on request or via our website.
- All prices are quoted in GBP and exclude VAT unless otherwise stated.

Delivery & Lead Times

- Pricing excludes delivery and installation unless specified within the quotation.
- Standard lead time for products within our RRP collection is approximately 4–6 weeks, subject to availability and seasonal demand.
- Bespoke products and customised finishes may require extended lead times depending on specification and project scope.
- During peak periods, including summer months, lead times may vary. Please contact your account manager for current production schedules.
- If shorter lead times are required, please speak with your account manager to discuss available options.

Delivery & Installations

- Installation services are available upon request and are quoted separately for each project.
- Where installation is carried out by 2020 Furniture Design, clear and unrestricted site access must be provided prior to the agreed installation date.
- Any preparatory works, including electrical works, site clearance or building works, remain the responsibility of the client. Delays or incomplete preparation may result in additional charges.
- Selected collections and bespoke projects must be delivered and installed exclusively by the 2020 Furniture Design installation team.

Warranty

- All products are covered by a 5-year warranty under normal fair wear and tear conditions.
- This warranty covers structural frames, foam and padding materials.
- Fabrics are covered under the respective manufacturer's warranty, typically 5 years depending on fabric selection.
- Electrical components, power modules and integrated charging solutions are covered by a 1-year warranty.
- Moving components and consumable parts, including hinges and door mechanisms, are covered by a 1-year warranty.
- Expected product lifecycle is approximately 15 years under normal commercial use conditions.

Care & Maintenance

To preserve the appearance and longevity of the product, regular maintenance and appropriate cleaning methods are recommended.

- Vacuum upholstery regularly to remove dust and dirt
- Clean spills immediately to prevent staining
- Avoid abrasive cleaners and harsh chemicals
- Use a soft damp cloth for laminate and hard surfaces
- Professional upholstery cleaning is recommended periodically
