Vol. 01

stream

A collection that grows with every project.

Stream is one of our largest and most adaptable seating collections, created to support the changing needs of contemporary interiors.

From compact lounge seating and modular sofas to acoustic booths and collaborative settings, every element belongs to the same family—making it easy to create spaces that feel consistent throughout.

Whether furnishing a reception, breakout area, workplace or education environment, Stream provides the flexibility to build layouts that evolve with the project rather than limit it.

Designed by 2020FD

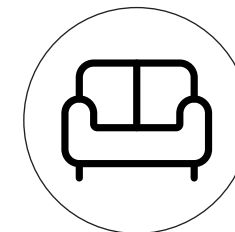

Crafted with care. Designed for people.

Stream has been developed as a complete seating family, giving designers the freedom to create spaces that respond to every project.

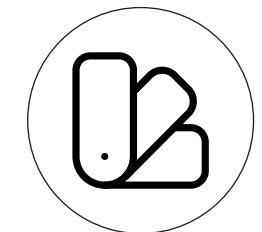

The collection includes sofas, benches, poufs, modular seating, corner units, radius modules, high-back seating and collaborative booths. Each element can be used individually or combined to create welcoming breakout, reception and workplace environments.

Choose between timber or metal legs, low or high-back configurations, open seating or enclosed arrangements. With such a wide choice of components, Stream makes it easy to create layouts that feel unique while maintaining a consistent design language throughout the interior.

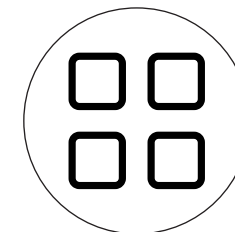

One collection. Endless configurations.

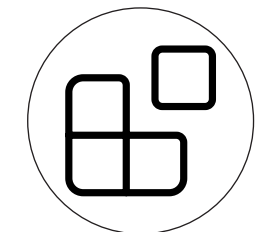

Reception, collaboration, breakout and workplace environments.

Sofas, booths, benches and modular seating.

Consistent design language throughout

Straight, corner and radius configurations.

stream

Manifest

Workplaces continue to change.

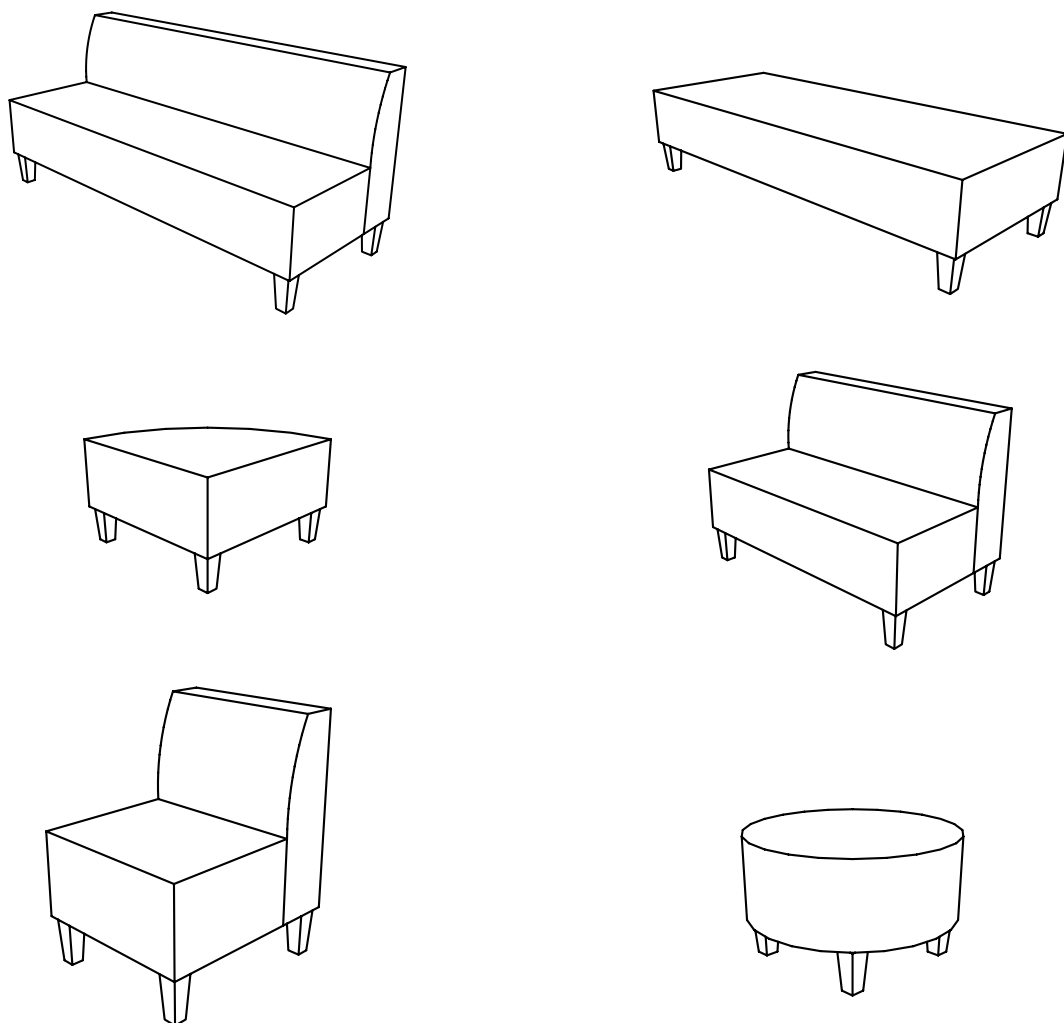

The spaces between desks have become just as important as the desks themselves.

Stream was created as a complete seating collection rather than a single product. Every sofa, booth, bench and modular element has been designed to work together, giving designers the freedom to shape spaces without changing the visual language of a project.

Whether creating a welcoming reception, an informal collaboration zone or a quiet breakout area, every configuration belongs to the same cohesive family. As projects evolve, new modules can be introduced while maintaining a consistent look and feel throughout the interior.

Large projects demand flexibility. Small projects deserve the same attention.

Stream provides both-offering a versatile collection that grows with every space and adapts to the way people work, meet and connect.

**Meet.
Share.
Grow.**

Built for every space.

The Stream collection includes lounge seating, benches, modular sofas, acoustic booths and collaborative meeting settings, allowing designers to specify an entire breakout environment from a single family of products.

Its wide choice of sizes, configurations and layouts makes it suitable for projects ranging from compact office interiors to large workplace fit-outs, while maintaining a consistent architectural appearance throughout.

Whether creating a reception area, collaboration zone or informal meeting space, Stream offers the flexibility to adapt without compromising design consistency.

Why stream?

Every project asks for something different.

Sometimes it's a quiet corner. Sometimes it's an open lounge. Sometimes it's an informal meeting place where people naturally gather throughout the day.

Stream answers all of these with one extensive collection.

From individual seating and modular sofas to enclosed booths, every product shares the same design language, making it simple to create balanced interiors that feel connected from space to space.

One collection.

Countless possibilities.

Spaces

The best shared spaces rarely happen by accident.

They are created by combining comfort, flexibility and thoughtful planning.

Stream makes this possible through an extensive collection of seating solutions that can be arranged, expanded and reconfigured as projects develop.

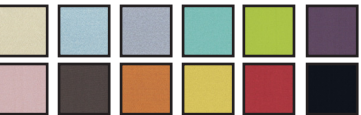

From quiet corners to busy collaboration zones, every configuration contributes to a workplace that feels welcoming, functional and connected.

Choose your own

Our upholstery collection is structured to provide clarity and flexibility in material selection. Fabrics are divided into two categories: Band 1 and Band 2, allowing projects to meet both aesthetic and performance requirements.

Band 1 offers a versatile range of high-quality fabrics that balance durability, functionality, and visual appeal. These materials deliver reliable performance with a refined finish. Band 2 features a selection of premium textiles with richer textures, enhanced tactility, and expanded color options-ideal for stream sophisticated interiors.

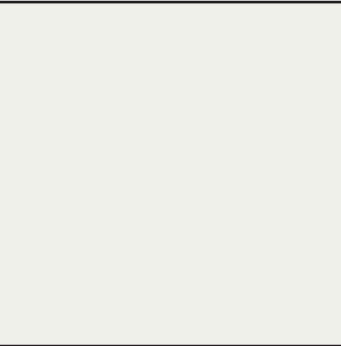

The collection also includes screen fabrics for vertical applications such as acoustic panels and privacy screens, ensuring both performance and visual consistency.

Selected finishes are available in vinyl, offering resistance to moisture, staining, and intensive use-ideal for high-traffic environments requiring easy maintenance without compromising design quality.

Our products are built using carefully selected materials that combine visual quality with functional performance. We utilize MFC boards along with layered, sound-absorbing structures and soft textile finishes to help reduce unwanted sound reflections from surrounding surfaces such as walls, furniture, and glazing.

The material composition is designed to support speech clarity and everyday comfort, minimizing background noise and improving the overall acoustic experience of the space.

Choose your own

You can choose from a wide range of finishes and material options to match your project's character and design direction. We use a selection of high-quality MFC boards from trusted suppliers, ensuring durability, consistency, and a refined appearance across all elements.

In addition to the standard finishes, custom materials and colors can be provided upon request. For larger or stream specific projects, we are able to source and prepare tailored solutions based on the client's needs and preferred aesthetics.

Before you order

General

- By placing an order with 2020 Furniture Design, you agree to our standard Terms & Conditions, available on request or via our website.
- All prices are quoted in GBP and exclude VAT unless otherwise stated.

Delivery & Lead Times

- Pricing excludes delivery and installation unless specified within the quotation.
- Standard lead time for products within our RRP collection is approximately 4–6 weeks, subject to availability and seasonal demand.
- Bespoke products and customised finishes may require extended lead times depending on specification and project scope.
- During peak periods, including summer months, lead times may vary. Please contact your account manager for current production schedules.
- If shorter lead times are required, please speak with your account manager to discuss available options.

Delivery & Installations

- Installation services are available upon request and are quoted separately for each project.
- Where installation is carried out by 2020 Furniture Design, clear and unrestricted site access must be provided prior to the agreed installation date.
- Any preparatory works, including electrical works, site clearance or building works, remain the responsibility of the client. Delays or incomplete preparation may result in additional charges.
- Selected collections and bespoke projects must be delivered and installed exclusively by the 2020 Furniture Design installation team.

Warranty

- All products are covered by a 5-year warranty under normal fair wear and tear conditions.
- This warranty covers structural frames, foam and padding materials.
- Fabrics are covered under the respective manufacturer's warranty, typically 5 years depending on fabric selection.
- Electrical components, power modules and integrated charging solutions are covered by a 1-year warranty.
- Moving components and consumable parts, including hinges and door mechanisms, are covered by a 1-year warranty.
- Expected product lifecycle is approximately 15 years under normal commercial use conditions.

Care & Maintenance

To preserve the appearance and longevity of the product, regular maintenance and appropriate cleaning methods are recommended.

- Vacuum upholstery regularly to remove dust and dirt
- Clean spills immediately to prevent staining
- Avoid abrasive cleaners and harsh chemicals
- Use a soft damp cloth for laminate and hard surfaces
- Professional upholstery cleaning is recommended periodically
