thinkpod

Where thinking gets room to breathe.

ThinkPod was built for the spaces between meetings – the calls that need quiet, the conversations that need a table, the focus sessions that need a door.

Available as single, two, four, and six-seater configurations – flat, pitched, or open roof – each pod is designed to wheel under a standard doorway in its agile format, making it as easy to move as it is to use.

Upholstered throughout. Table and seating included as standard. Chrome or timber legs. Two-tone upholstery available across the full range.

Designed by 2020FD

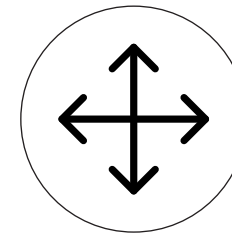

Crafted with care. Designed for people.

ThinkPod starts from a single question: what does the person inside actually need?

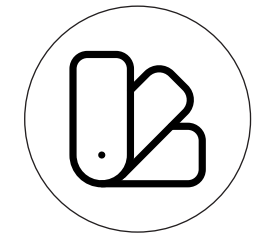

Sometimes it's a place to take a call without disrupting the floor. Sometimes it's a two-person table for a conversation that doesn't belong in a meeting room.

Sometimes it's a six-seater that turns an open-plan corridor into the most used spot in the building. Every pod is built the same way regardless of size - upholstered walls, integrated table, standard pole leg, and an MFC table top included in the price.

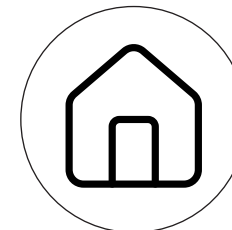

Specify it once. Use it everywhere.

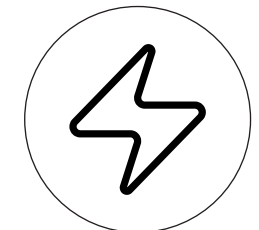

Agile format wheels under standard doorways - no installation required.

Single, two, four, and six-seater configurations in one collection.

Flat, pitched, or open roof — choose the profile that suits the space.

Power module available - keeps people connected throughout the day.

thinkpod

Manifest

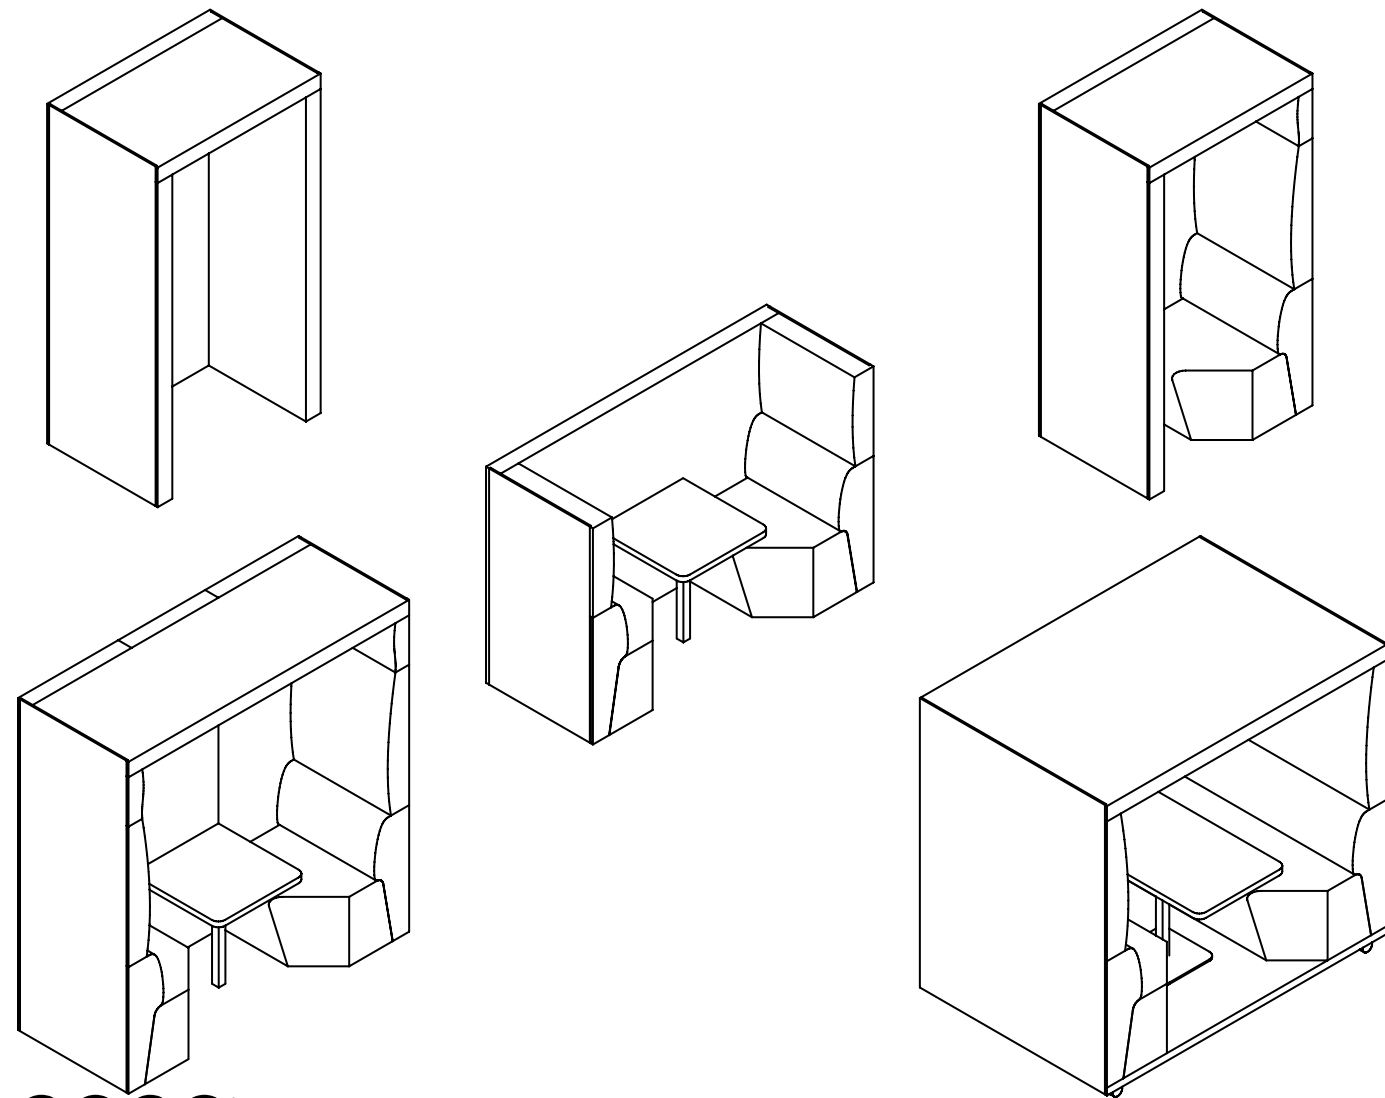

The open-plan office gave everyone a desk.
It didn't give everyone somewhere to think.

ThinkPod fills that gap - not with walls, but with the right amount of enclosure. Enough to make a call without moving to the stairwell. Enough to have a conversation without the whole floor listening. Enough to get something done without booking a room two days in advance.

Each pod comes ready to use: upholstered seat, back, table, and leg - all included. The agile versions roll on castors and clear a standard doorway, so the layout can change whenever the work does.

From a single seat to a six-person meeting pod, ThinkPod covers every version of the question: where can I do this?

And the answer is always: right here.

Think. Talk. Do.

Built for every space.

Most seating collections give you a sofa and a chair. ThinkPod gives you an entire system.

Single pods for focused work. Two-seater booths for quick catch-ups. Four and six-seater configurations for team sessions that don't need a boardroom. Every unit shares the same upholstered build and MFC table - so mixing sizes never means mixing aesthetics.

Available with a flat, pitched, or open roof, in study height or agile format. Chrome or timber legs. Standard or wheelchair-accessible footprint.

Why thinkpod?

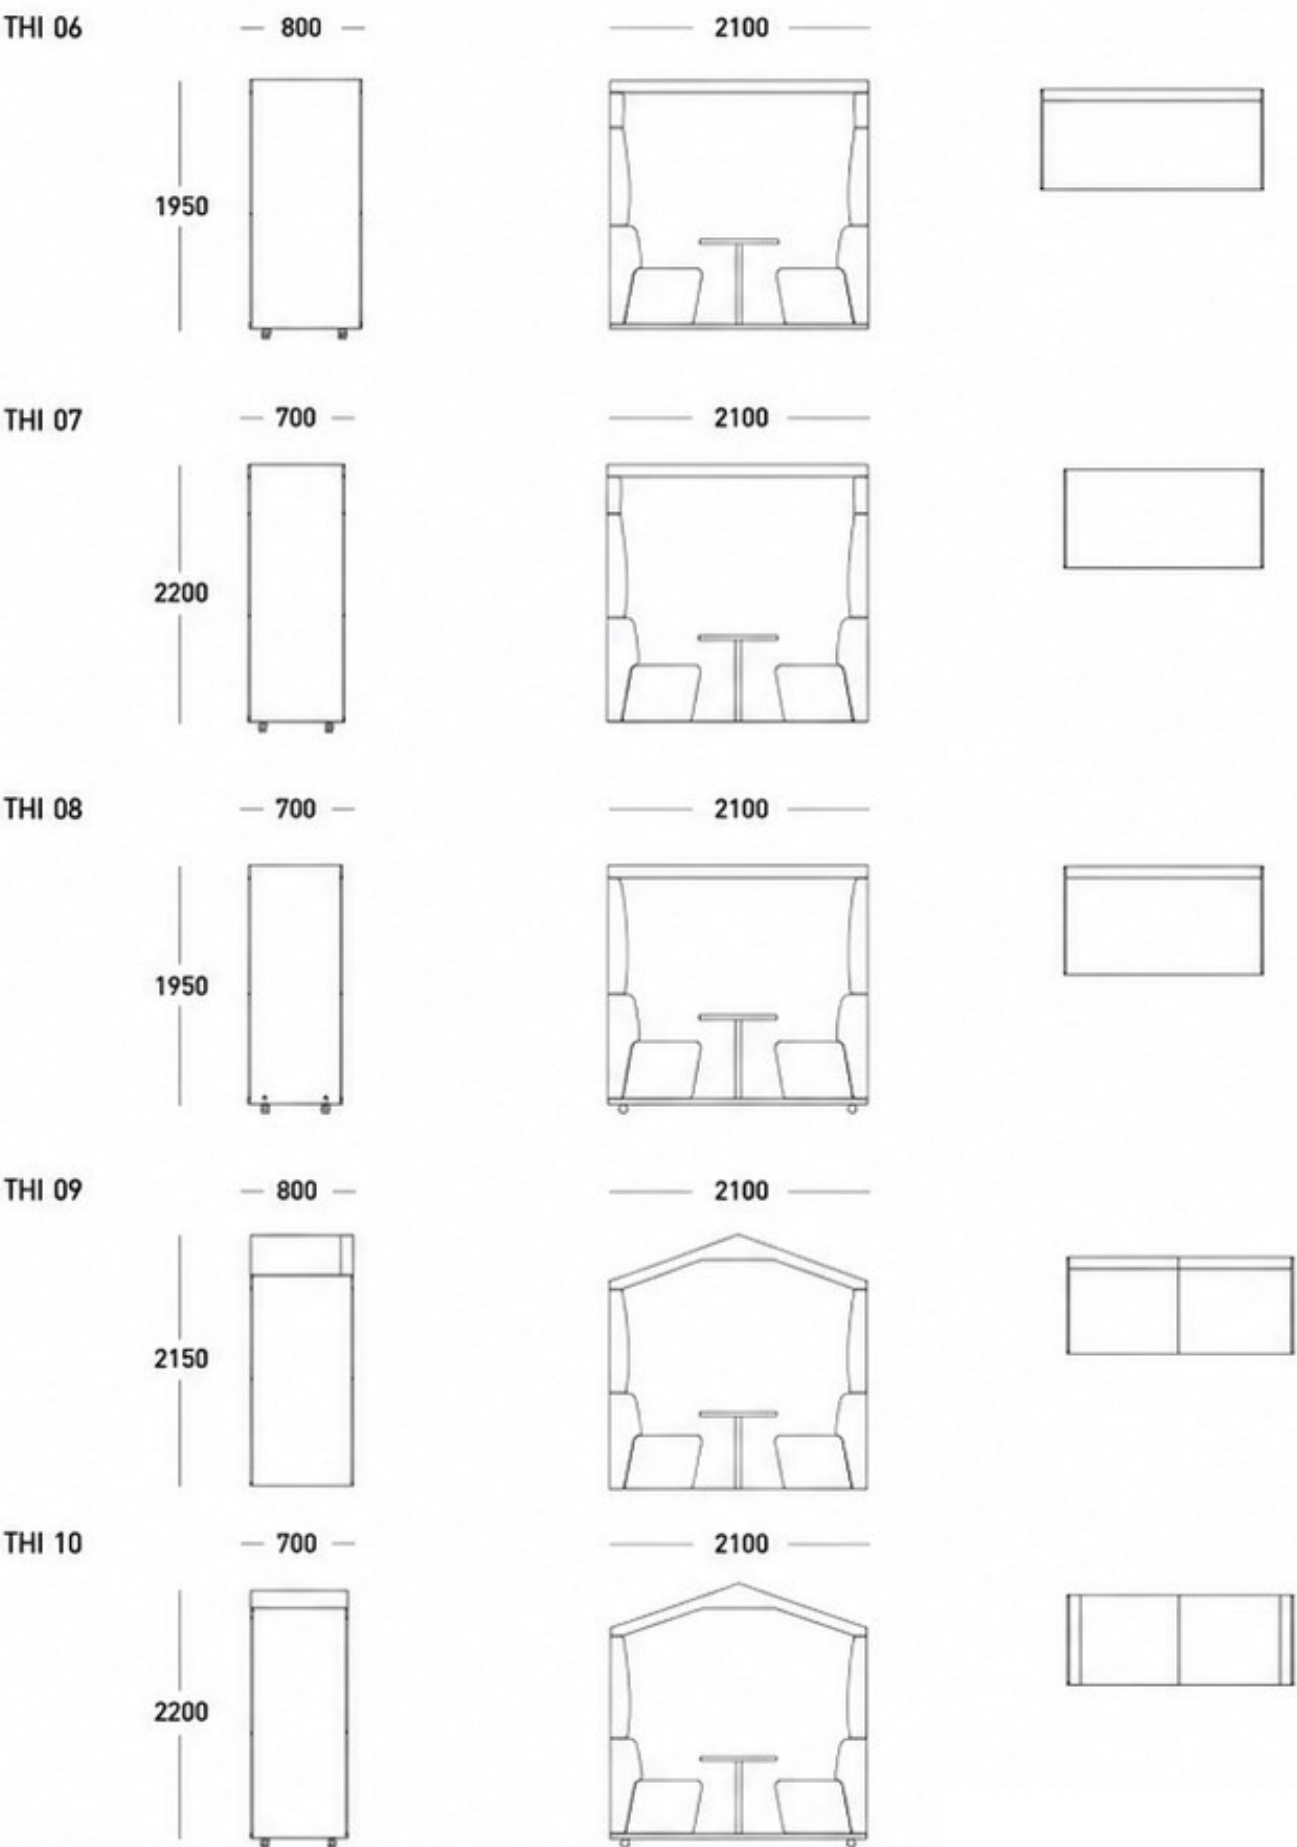

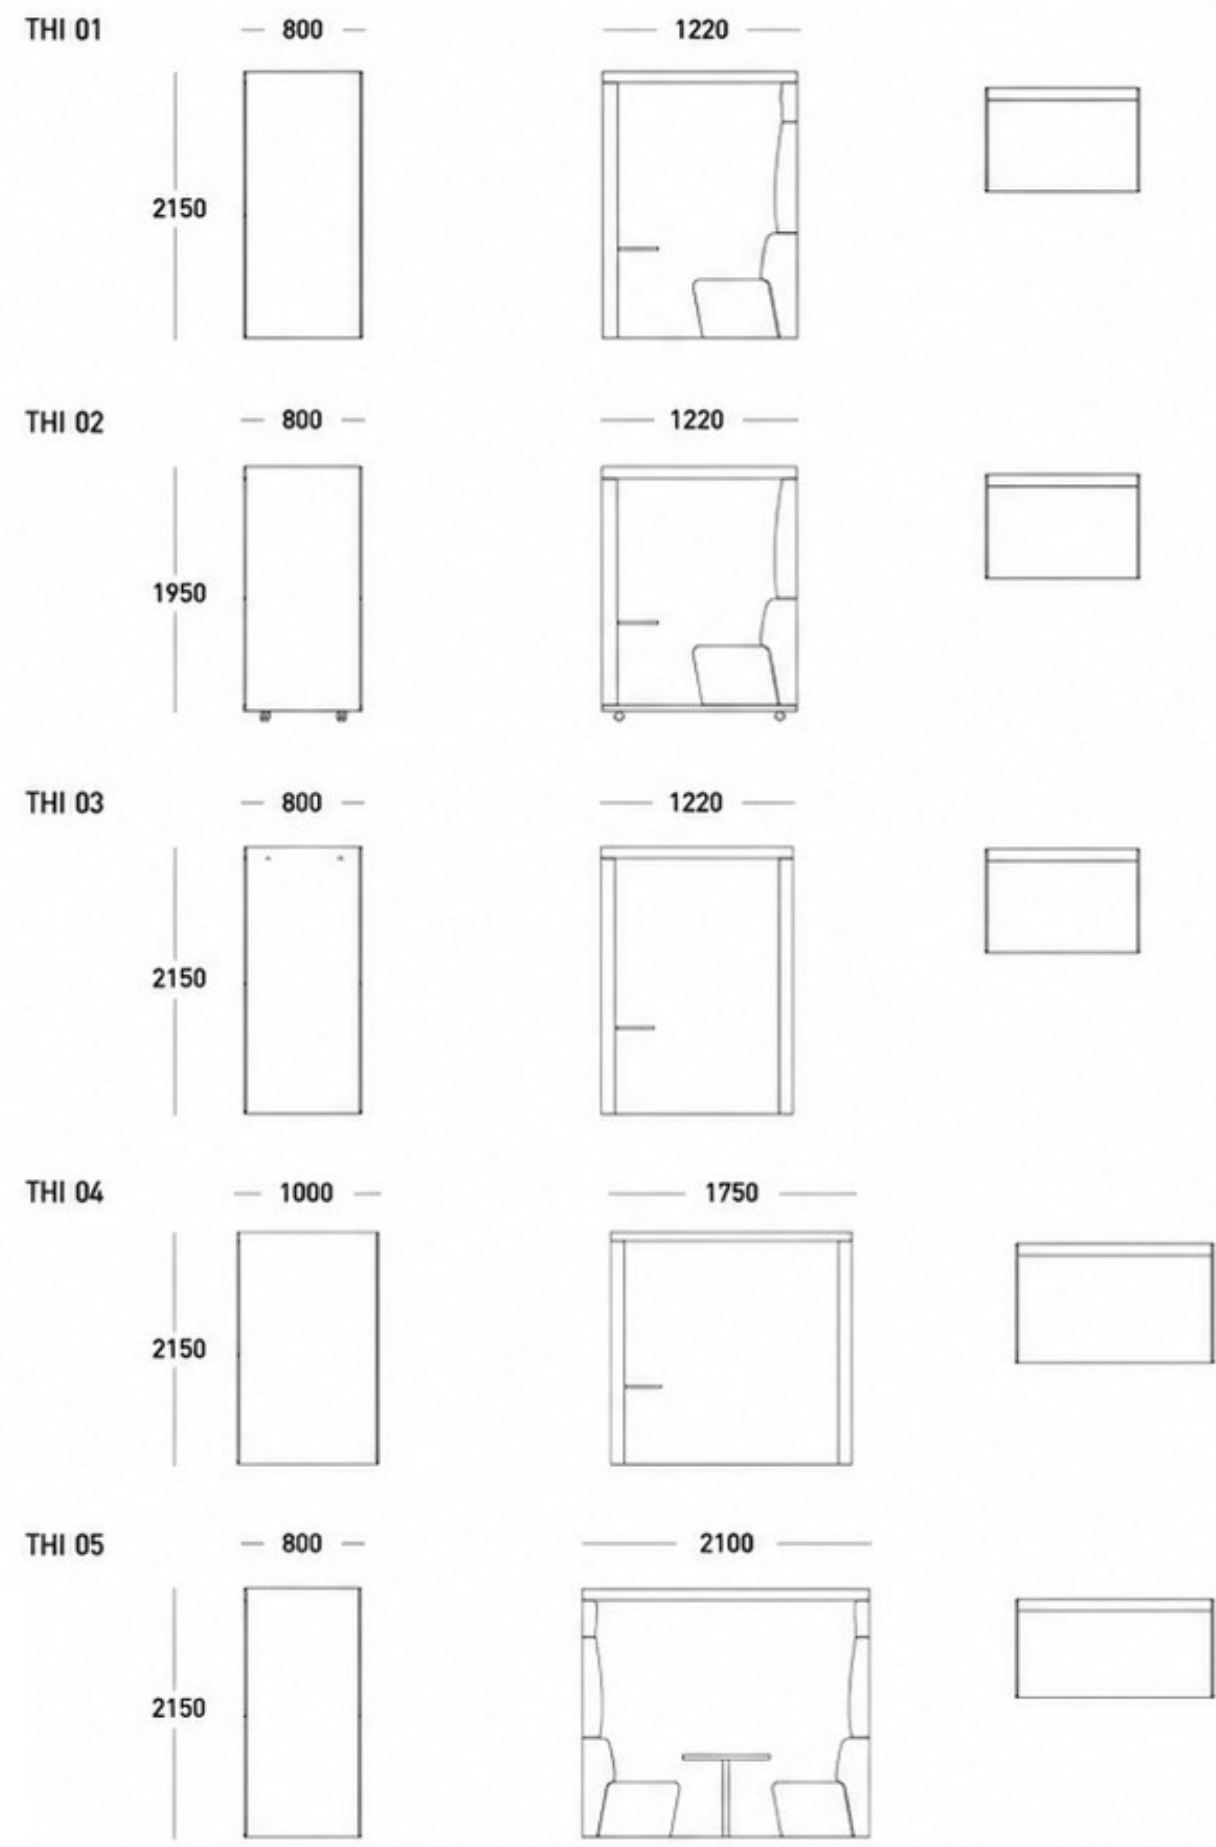

Because most projects need more than one kind of space.

A reception needs something open and welcoming. A breakout floor needs something that absorbs noise. An education environment needs something that moves when the timetable does.

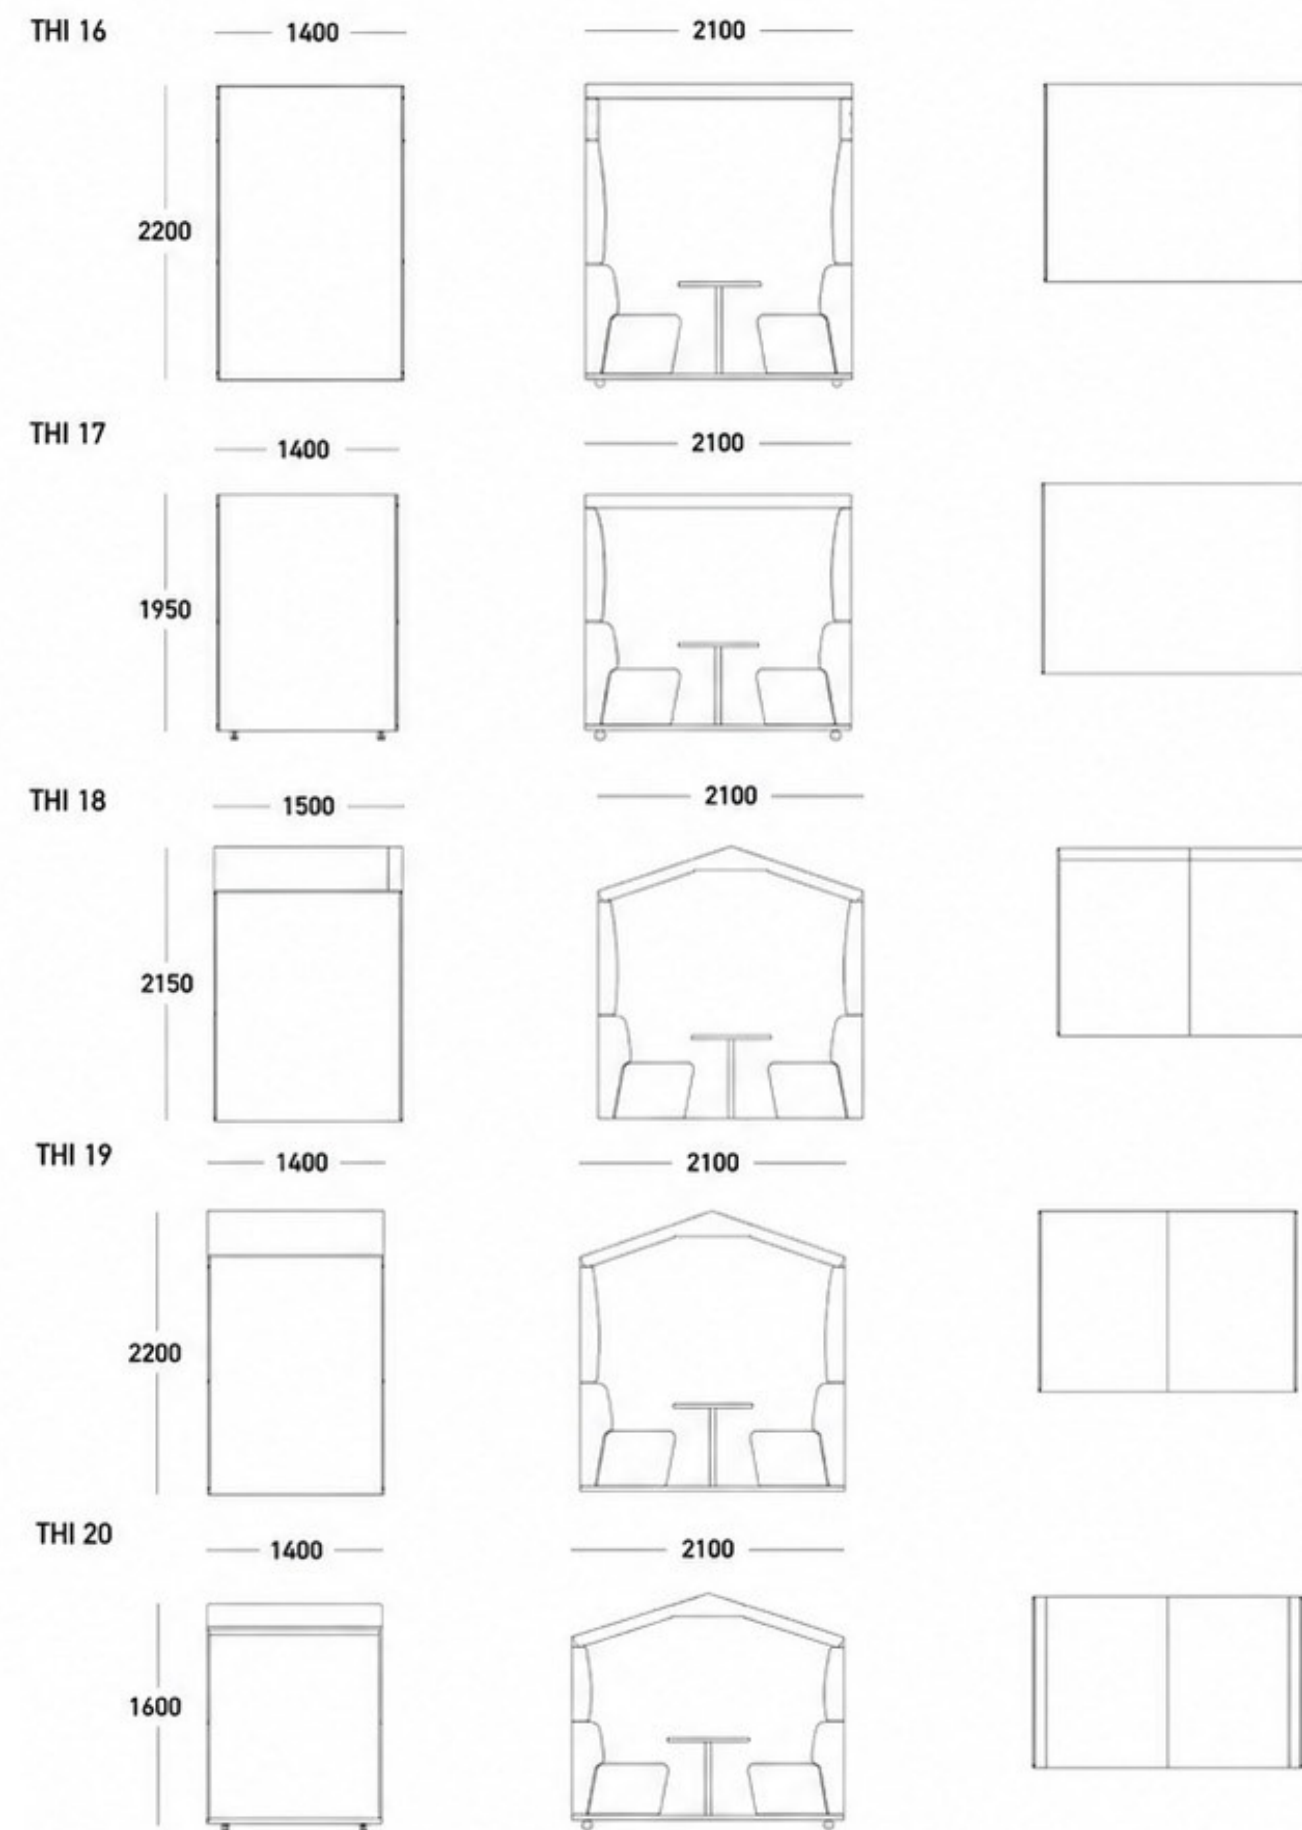

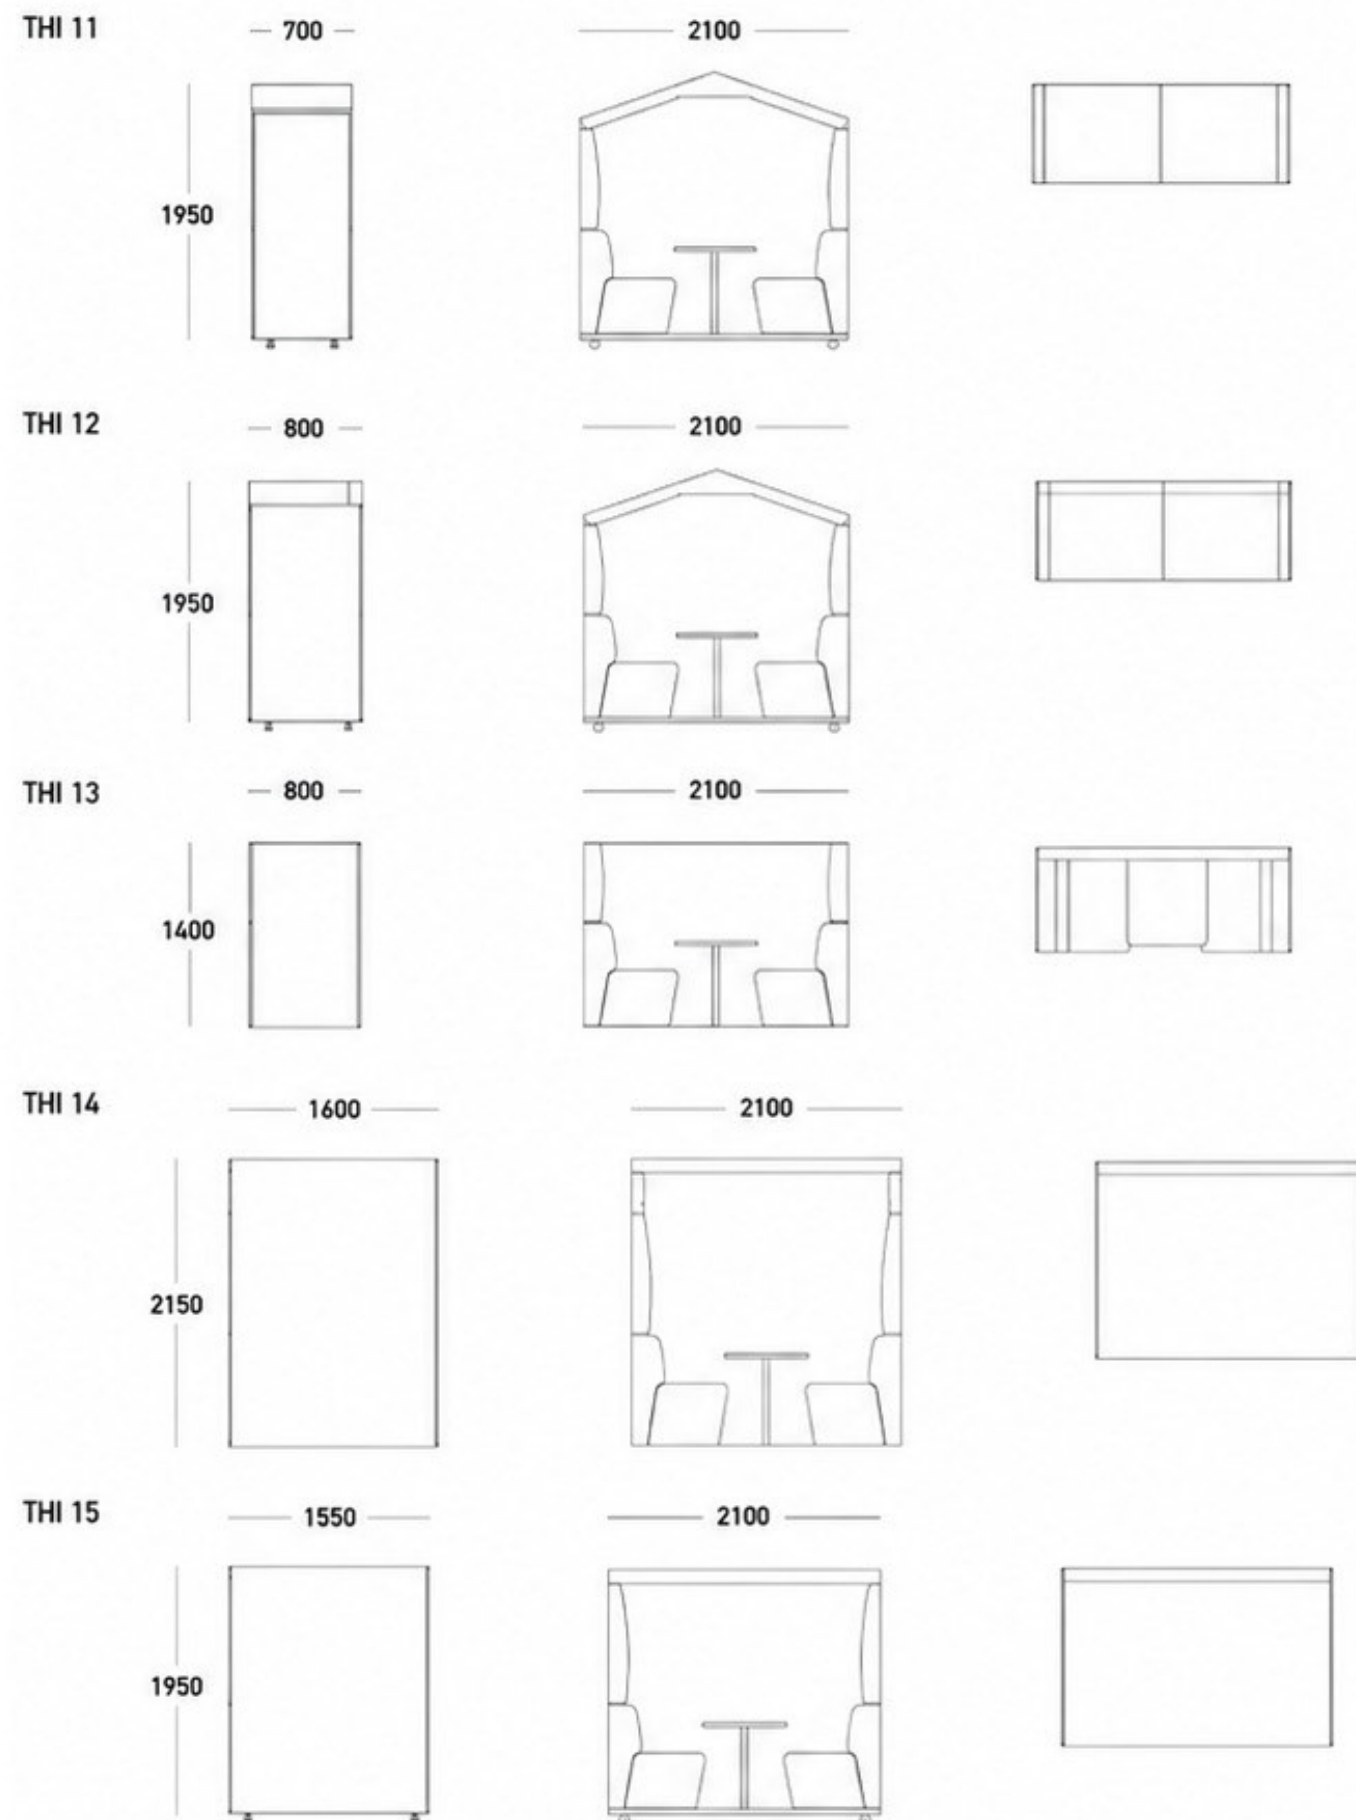

ThinkPod answers all three without asking for a different supplier.

Every pod uses the same core build, the same fabric specification, and the same lead time - making it simple to scale from a single unit to a full floor without the specification becoming complicated.

One collection. No compromises.

Spaces

A workspace isn't defined by what's on the desks.
It's defined by what happens between them.

ThinkPod creates the infrastructure for those in-between moments - the two-minute call, the fifteen-minute debrief, the hour-long focus session that needs a surface and a bit of quiet.

Each configuration - from a single agile pod on castors to a fixed six-seater with a pitched roof — gives the floor a reason to be used differently throughout the day.

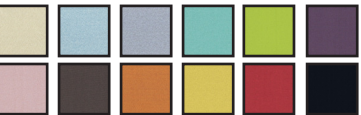

Upholstered walls. Integrated table. Power module available.
A pod for every moment the open plan doesn't quite cover.

Choose your own

Our upholstery collection is structured to provide clarity and flexibility in material selection. Fabrics are divided into two categories: Band 1 and Band 2, allowing projects to meet both aesthetic and performance requirements.

Band 1 offers a versatile range of high-quality fabrics that balance durability, functionality, and visual appeal. These materials deliver reliable performance with a refined finish. Band 2 features a selection of premium textiles with richer textures, enhanced tactility, and expanded color options-ideal for thinkpode sophisticated interiors.

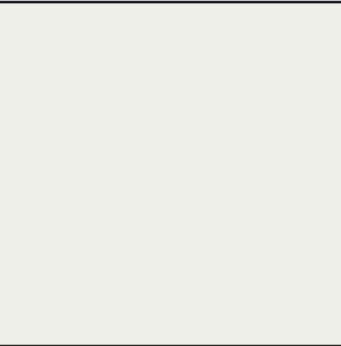

The collection also includes screen fabrics for vertical applications such as acoustic panels and privacy screens, ensuring both performance and visual consistency.

Selected finishes are available in vinyl, offering resistance to moisture, staining, and intensive use-ideal for high-traffic environments requiring easy maintenance without compromising design quality.

Our products are built using carefully selected materials that combine visual quality with functional performance. We utilize MFC boards along with layered, sound-absorbing structures and soft textile finishes to help reduce unwanted sound reflections from surrounding surfaces such as walls, furniture, and glazing.

The material composition is designed to support speech clarity and everyday comfort, minimizing background noise and improving the overall acoustic experience of the space.

Choose your own

You can choose from a wide range of finishes and material options to match your project's character and design direction. We use a selection of high-quality MFC boards from trusted suppliers, ensuring durability, consistency, and a refined appearance across all elements.

In addition to the standard finishes, custom materials and colors can be provided upon request. For larger or thinkpode specific projects, we are able to source and prepare tailored solutions based on the client's needs and preferred aesthetics.

Before you order

General

- By placing an order with 2020 Furniture Design, you agree to our standard Terms & Conditions, available on request or via our website.
- All prices are quoted in GBP and exclude VAT unless otherwise stated.

Delivery & Lead Times

- Pricing excludes delivery and installation unless specified within the quotation.
- Standard lead time for products within our RRP collection is approximately 4–6 weeks, subject to availability and seasonal demand.
- Bespoke products and customised finishes may require extended lead times depending on specification and project scope.
- During peak periods, including summer months, lead times may vary. Please contact your account manager for current production schedules.
- If shorter lead times are required, please speak with your account manager to discuss available options.

Delivery & Installations

- Installation services are available upon request and are quoted separately for each project.
- Where installation is carried out by 2020 Furniture Design, clear and unrestricted site access must be provided prior to the agreed installation date.
- Any preparatory works, including electrical works, site clearance or building works, remain the responsibility of the client. Delays or incomplete preparation may result in additional charges.
- Selected collections and bespoke projects must be delivered and installed exclusively by the 2020 Furniture Design installation team.

Warranty

- All products are covered by a 5-year warranty under normal fair wear and tear conditions.
- This warranty covers structural frames, foam and padding materials.
- Fabrics are covered under the respective manufacturer's warranty, typically 5 years depending on fabric selection.
- Electrical components, power modules and integrated charging solutions are covered by a 1-year warranty.
- Moving components and consumable parts, including hinges and door mechanisms, are covered by a 1-year warranty.
- Expected product lifecycle is approximately 15 years under normal commercial use conditions.

Care & Maintenance

To preserve the appearance and longevity of the product, regular maintenance and appropriate cleaning methods are recommended.

- Vacuum upholstery regularly to remove dust and dirt
- Clean spills immediately to prevent staining
- Avoid abrasive cleaners and harsh chemicals
- Use a soft damp cloth for laminate and hard surfaces
- Professional upholstery cleaning is recommended periodically
