verta

Some furniture fills a room.
Verta earns its place in it.

Designed around the needs of modern breakout spaces,
Verta brings together precise craftsmanship and
residential comfort in a collection that works as hard
as the people using it.

Pitched arms. Sculpted back. Timber underframe. Twin-
needle stitching with optional contrast thread. Every
detail deliberate, every choice considered.

Available as a one, two, or three-seater – each
piece built to the same standard, finished to your
specification.

Built to last.
Made to be used.

Designed by 2020FD

Crafted with care. Designed for people.

The Verta Sofa Collection is defined by its elegant pitched arms, sculpted back, and timber underframe – every detail balanced between structure and comfort.

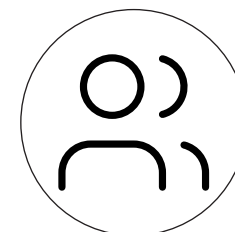

Inspired by the word vertical, Verta reflects clean architectural lines that feel at home in the modern office without ever looking out of place.

Whether outfitting a quiet focus corner or a busy collaboration hub, Verta adapts.

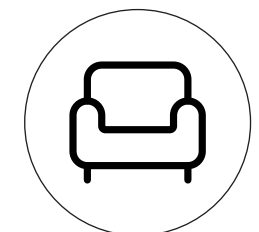

Its one, two, and three-seater options work independently or together as a complete breakout suite.

Twin-needle stitching with optional contrasting thread adds a layer of personalisation – tone-on-tone for restraint, contrast for character. Durable enough for high-use commercial spaces. Comfortable enough to feel like home. Designed to support people.

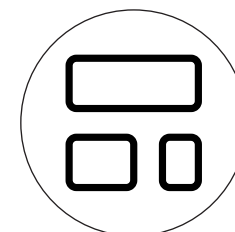

Built to last.

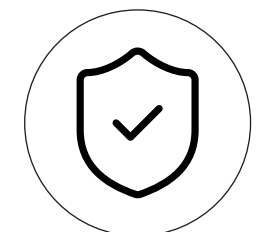

Designed for breakout areas, informal meetings and collaboration zones.

Fixed cushions with a deliberately loose, residential appearance.

Available as a one, two, or three-seater – easy to arrange, easy to specify.

Commercial-grade construction designed for long-term performance.

verta

Manifest

Nobody talks about furniture in a well-designed room.
They talk about the meeting that ran long because the space felt right.
The conversation that started over coffee and turned into something useful.
The colleague they hadn't properly spoken to in weeks.
Great breakout spaces aren't defined by how they look.

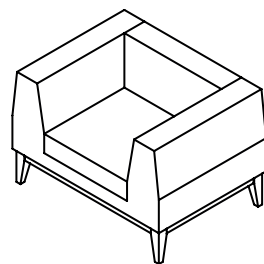

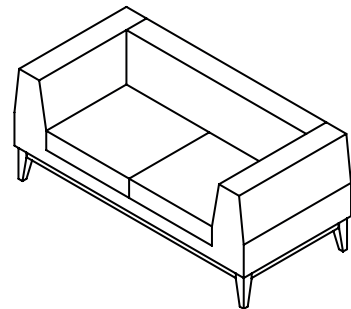

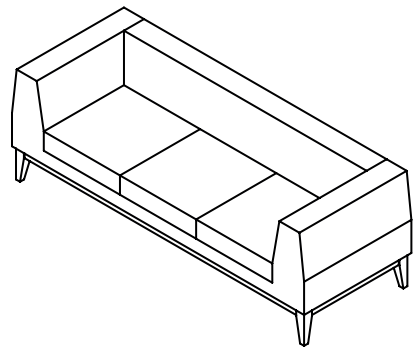

That's what Verta is for.

Not to be noticed. To make things happen.

It brings together soft seating that's precise without being stiff, relaxed without being shapeless.
Fixed cushions that hold their form. Arms that give the piece its posture. A base that keeps everything grounded.

Simple to specify. Simple to arrange. And once it's in a space - genuinely hard to imagine without it.

Made for everyday moments.

Rest. Think. Gather.

Built around everyday moments.

The chair nobody argues about.

Some pieces in a room start conversations. Verta starts the ones that matter - between people, not about the furniture itself.

It sits right. It looks right. It doesn't demand maintenance, rearrangement, or explanation. You put it in a space and the space starts working.

That's harder to design than it sounds.

Why verta?

Good work deserves good furniture.

Since 2011, 2020 Furniture Design has worked with dealers to close the gap between what projects need and what budgets allow. Verta is the result of that thinking applied to soft seating.

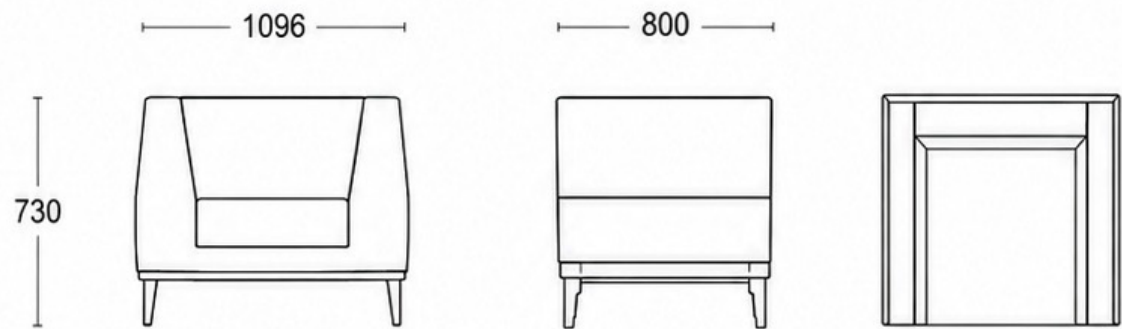

Pitched arms that give it structure. A sculpted back that gives it personality. Twin-needle stitching - with optional contrast thread - that gives it craft. A timber underframe in black or white that gives it longevity.

Industry-leading quality. Without the industry-leading price tag.

Spaces

The best breakout spaces have one thing in common: people choose to use them.

Not because they're told to. Not because there's nowhere else to go. But because the space itself makes the decision easy.

Verta is designed for those spaces. Low enough to feel inviting. Structured enough to support a working posture. Finished carefully enough to hold its own next to the design decisions that surround it.

Put it in a reception area and it signals quality. Put it in a staff breakout and it signals that people matter. Put it in an education common room and it simply gets used — which is the whole point.

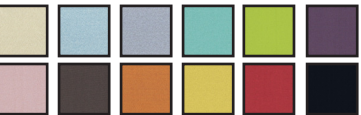

One collection. Three sizes. Any space.

Choose your own

Our upholstery collection is structured to provide clarity and flexibility in material selection. Fabrics are divided into two categories: Band 1 and Band 2, allowing projects to meet both aesthetic and performance requirements.

Band 1 offers a versatile range of high-quality fabrics that balance durability, functionality, and visual appeal. These materials deliver reliable performance with a refined finish. Band 2 features a selection of premium textiles with richer textures, enhanced tactility, and expanded color options-ideal for vertae sophisticated interiors.

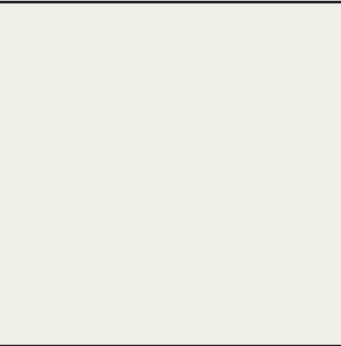

The collection also includes screen fabrics for vertical applications such as acoustic panels and privacy screens, ensuring both performance and visual consistency.

Selected finishes are available in vinyl, offering resistance to moisture, staining, and intensive use-ideal for high-traffic environments requiring easy maintenance without compromising design quality.

Our products are built using carefully selected materials that combine visual quality with functional performance. We utilize MFC boards along with layered, sound-absorbing structures and soft textile finishes to help reduce unwanted sound reflections from surrounding surfaces such as walls, furniture, and glazing.

The material composition is designed to support speech clarity and everyday comfort, minimizing background noise and improving the overall acoustic experience of the space.

Choose your own

You can choose from a wide range of finishes and material options to match your project's character and design direction. We use a selection of high-quality MFC boards from trusted suppliers, ensuring durability, consistency, and a refined appearance across all elements.

In addition to the standard finishes, custom materials and colors can be provided upon request. For larger or vertae specific projects, we are able to source and prepare tailored solutions based on the client's needs and preferred aesthetics.

Before you order

General

- By placing an order with 2020 Furniture Design, you agree to our standard Terms & Conditions, available on request or via our website.
- All prices are quoted in GBP and exclude VAT unless otherwise stated.

Delivery & Lead Times

- Pricing excludes delivery and installation unless specified within the quotation.
- Standard lead time for products within our RRP collection is approximately 4–6 weeks, subject to availability and seasonal demand.
- Bespoke products and customised finishes may require extended lead times depending on specification and project scope.
- During peak periods, including summer months, lead times may vary. Please contact your account manager for current production schedules.
- If shorter lead times are required, please speak with your account manager to discuss available options.

Delivery & Installations

- Installation services are available upon request and are quoted separately for each project.
- Where installation is carried out by 2020 Furniture Design, clear and unrestricted site access must be provided prior to the agreed installation date.
- Any preparatory works, including electrical works, site clearance or building works, remain the responsibility of the client. Delays or incomplete preparation may result in additional charges.
- Selected collections and bespoke projects must be delivered and installed exclusively by the 2020 Furniture Design installation team.

Warranty

- All products are covered by a 5-year warranty under normal fair wear and tear conditions.
- This warranty covers structural frames, foam and padding materials.
- Fabrics are covered under the respective manufacturer's warranty, typically 5 years depending on fabric selection.
- Electrical components, power modules and integrated charging solutions are covered by a 1-year warranty.
- Moving components and consumable parts, including hinges and door mechanisms, are covered by a 1-year warranty.
- Expected product lifecycle is approximately 15 years under normal commercial use conditions.

Care & Maintenance

To preserve the appearance and longevity of the product, regular maintenance and appropriate cleaning methods are recommended.

- Vacuum upholstery regularly to remove dust and dirt
- Clean spills immediately to prevent staining
- Avoid abrasive cleaners and harsh chemicals
- Use a soft damp cloth for laminate and hard surfaces
- Professional upholstery cleaning is recommended periodically
